Message from the Mayor

November 2025

I am pleased to present Norfolk County's Draft 2026-2035 Levy Capital Plan.

This year's budget process reflects a new chapter for our municipality, following the Province of Ontario's granting of Strong Mayor Powers under part VI.1 of the Municipal Act, 2001. While this new framework provides mayors with additional authority, I committed in July to maintaining our longstanding approach to budget development: one that values the input of staff, Council, and the public. For 25 years, this collaborative process has helped shape responsible and transparent financial planning for Norfolk County.

In keeping with my commitment, I provided direction to staff that the 10-Year Levy Capital Plan be prepared in alignment with Council-approved objectives like keeping capital reserve balances positive, not exceeding debt repayment limits, and following through with the sustainable financing strategy established in Norfolk's Asset Management Plan earlier this year. I also asked that timelines and overall process remain consistent with previous years. As this staff-prepared budget reflects that direction, and was developed through a collaborative effort, I have not exercised Strong Mayor Powers to amend it.

I look forward to working with Council as we review the budget and continue our efforts to build a more sustainable and predictable future for Norfolk. Together, this Capital Plan helps advance our strategic priorities by making investments in roads, buildings, and emergency services equipment, keeping you—our residents—safe, connected, and at the forefront of Council and staff's efforts.

Thank you to staff, Council members, and residents for your contributions to this important work. Your input is essential to building a County where residents and businesses can thrive.

Mayor Amy Martin Norfolk County

Message from the Treasurer

The Draft 2026-2035 Levy Capital Plan is the second budget being presented to Budget Committee for the 2026 budget cycle. This document highlights all capital investments planned for levy-related assets over the next 10 years, totalling over \$750 million. Combined with the forecast of water and wastewater capital projects adopted in October, the County's capital investment is projected to reach nearly \$1.2 billion over the next 10 years.

84% of the spending in this Draft 2026-2035 Levy Capital Plan is targeted towards renewal projects intended to get existing assets into a better condition. While these projects don't always make headlines, fundamental investments into maintaining what Norfolk already owns is required before sustainably building more.

Council's endorsement of a financial strategy earlier this year to close the funding shortfall helped to decrease the reliance on expensive funding sources like debt over the next decade, even after considering increases to forecasted spending guided by the asset management plan. This demonstrates that through disciplined planning and project prioritization we can align capital investments with long-term funding strategies to ensure that decisions made today do not compromise flexibility in the future. When capital investments are guided by sound asset management planning, we can ensure that we invest in the right assets at the right time, extending their useful life and minimizing future liabilities.

Moving forward, some exciting milestones lie ahead in the Finance department. In tandem with recent updates to the Purchasing Policy, a future Budget Control Policy will reshape the way that projects being adopted today will be tendered and communicated to Council, allowing projects to be completed more efficiently. On the growth front, a Development Charges Background Study is in the works to respond to recent legislation, improve the identification of growth-related capital, and align the collection of revenues with the most appropriate stakeholders.

I want to share that this forecast was developed through open consultation across the organization, rigorous analysis, and clear reporting, so that residents and stakeholders can trace how funds are allocated and understand the rationale behind major projects. As a final note, I want to offer my thanks to Council for its leadership, and to all members of Norfolk County's Senior Leadership Team, project managers, and the Finance department for their hard work and dedication supporting the 2026 budget process.

Amy Fanning, CPA
Treasurer / Director, Finance

SECTION 1 Corporate Services Report

Working together with our community

Budget Committee Meeting – November 20, 2025

Subject: Draft 2026-2035 Levy Capital Plan

Report Number: CS-25-160

Division: Corporate Services

Department: Finance
Ward: All Wards
Purpose: For Decision

Recommendation(s):

That Report CS-25-160 Draft 2026-2035 Levy Capital Plan be received as information; and

That the 2026 Levy Capital Budget totaling \$69,729,000 be adopted; and

Further that the Levy Capital Forecast for the years 2027-2035 totaling \$680,992,000 be received as information.

Executive Summary:

Purpose of the Report: This report presents the Draft 2026-2035 Levy Capital Plan, which outlines the investments the County expects to complete over the next 10 years in key public service areas like roads, facilities, fleet, parks, and stormwater.

Background and Context: The Draft 2026 Levy Capital Budget includes \$69.7 million in capital projects recommended for adoption, and a total of \$750.7 million recommended over the capital forecast period, nearing \$1.2 billion over the next 10 years in combination with the Rate Budget, received by Budget Committee in October.

Key Findings and Analysis: With Council's endorsement of a long-term financial strategy earlier this year, the 10-Year Capital Plan forecasts a much more sustainable level of funding available to pay for the recommended projects. Continued support of this strategy will be critical to following through with the project recommendations.

Conclusion / Recommendation: Project recommendations are included in Sections 2-7. Budget Committee may adopt or amend the amount, timing, or scope of any projects.

Financial Implications: This report covers the impacts of undertaking the recommended projects on key financial tools and concepts such as the County's reserves, debt capacity, lifecycle costing, and property taxes.

Discussions:

Introduction

Each year, the 10-Year Levy Capital Plan provides an updated financial snapshot of the County, as well as a path for the County's future success. It is developed through a collaborative process led by Finance, involving teamwork across all County departments, oversight by the Senior Leadership Team, and input from Norfolk County residents and Council. It takes into consideration current service levels, financial sustainability, and project management capacity.

This year's update plans to provide \$750 million over 10 years to support home-building with investments that enable complete communities, improve infrastructure like roads that residents drive on every day, and protect environmental assets to keep Norfolk's natural heritage strong.

Council's adoption of a long-term financial strategy supporting the asset management plan (AMP) has set Norfolk on a clear path for sustainability. With improved data-driven lifecycle analysis informing project recommendations, Norfolk's capital planning processes have reached a new level of maturity. Combined with a 10-year plan in place to close the infrastructure funding shortfall, the community should be assured more than ever that funds will be available to pay for the needs of all existing assets as they arise. However, as asset data and cost estimates continue to evolve and improve, funding projections will need to be revisited.

The remaining Discussion portion of this report is presented in four key sections:

- 1. Active Levy Capital: a reminder of the projects which have commenced in previous years that are still active and ongoing.
- 2. Draft 2026 Levy Capital Budget: an overview of the projects being recommended for adoption in 2026.
- 3. Draft 2026-2035 Levy Capital Plan: an overview of the entirety of the 10-Year capital planning period.
- 4. Infrastructure Funding: a summary of the reserve- and debt-funding that is required to make the Draft 2026-2035 Levy Capital Plan a reality.

As a whole, this report comprises Section 1 of the budget document. Sections 2-7 provide the recommended projects, while Section 8 includes appendices with information on subjects such as how recommended reserve contributions are determined, what each column of the capital plan means, how funding source recommendations minimize property tax impacts, when or why debt is used, and how development charges (DCs) are calculated, for readers wanting more assistance on interpreting the capital plan or those looking for more detail on the County's processes.

Active Levy Capital (2025 & Prior)

Norfolk County maintains a large portfolio of capital projects at any given time, many of which require several years to reach completion. Bi-annually, a Capital Status Report (CSR) is prepared which highlights progress on active projects, allowing Council and the public to monitor capital spending and seek general status updates.

Before considering new project recommendations for 2026 and the future, it is important to consider what is already underway. As reported on the latest CSR, presented at the September 9th, 2025 Council-in-Committee Meeting, Norfolk has approximately \$309.2 million in capital work underway, with \$136.4 million pertaining to approximately 350 levy-supported projects (the rest pertains to water- or wastewater-related projects).

These projects include major investments to support the community, like the \$6.4 million purchase and renovation of the Gilbertson Administration Building, \$4.9 million for the widening of Highway 59, \$4.1 million for energy-saving retrofits to the Simcoe Recreation Centre, and \$3.9 million for the reconstruction of West St.

As the 10-Year Capital Plan is prepared, staff try to optimize funding recommendations to avoid expensive forms of financing like debt. With Council's adoption of GP-029 Debt Management Policy, granting delegated authority to the Treasurer to amend the funding source of active capital projects if it will decrease debt funding required by the County, this year staff also re-evaluated funding recommendations for all projects that were currently underway. A few opportunities for debt avoidance were identified by using excess reserve funding that had built up over the last year due to higher-than-expected investment earnings in capital reserves, and projects being completed underbudget throughout the year. As a result, the Treasurer exercised her delegated authority and decreased the amount of debt funding required for the County via:

 Reducing budgeted Debt by \$2,996,000 and increasing funding from the Drain Construction Reserve by \$2,996,000 across 18 projects including FR Gregory Drain, VanLoon Drain, Zdriluk Drain, Normandale Drain, Smith Subdivision Petition, Elliott-Kitchen Drain, Port Ryerse Petition, Ammerman Drain, Wallace Marsh Drain, Ninth Concession, Van Tyne Drain, Municipal System No.2, Waldick Petition, Southern Turkey Point Relief, Department of Highways No.1, Dertinger Drain Improvement, Andrew Drain, and Kwasnik Drain Construction. The expenditure budgets are not anticipated to change, but in total these funding amendments bring the amount of debt avoided since last year's 10-Year Levy Capital Plan approval to over \$12.5 million for levy-supported projects, and \$36.9 million for all projects including water and wastewater.

The benefits of the amendments listed above include lowering the impact against the County's Tax-Supported Repayment Target by 0.3% in the peak year (see Chart 4), and lowering the debt servicing charges carried in the Draft 2026 Levy Operating Budget by up to \$0.4 million, all while keeping the projected Drain Construction Reserve balance above its target uncommitted balance throughout the forecast period.

Draft Levy Capital Budget (2026)

The Draft 2026 Levy Capital Budget includes approximately \$69.7 million in recommended projects including new life-saving paramedic equipment, splash pad upgrades in Simcoe, multi-use court renovations in Courtland, a fire truck replacement at Station #8, plus design work on a new playground in Waterford, a road extension in Delhi, and the first potential roundabout in the County. Chart 1 summarizes the types of projects being recommended (left) and how those projects are being funded (right).

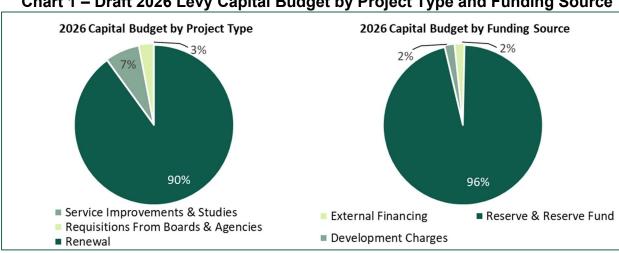

Chart 1 - Draft 2026 Levy Capital Budget by Project Type and Funding Source

The left side of Chart 1 indicates that, as usual, nearly all the projects (90%) being recommended in 2026 relate to renewal (replacements / rehabilitations of existing assets). Projects that create new assets or incrementally increase the service of existing assets follow at a share of 7%, while requisitions from boards & agencies like the Norfolk County Public Library make up the final 3%.

As highlighted on the right side of Chart 1, the majority of the projects in 2026 are recommended to be funded using capital reserves (96%). The other 4% is split between external recoveries (e.g., drainage assessments, recoveries from other municipalities for joint projects, etc.) and development charges (DCs), meaning no debt is required to complete projects being recommended in 2026. This follows the 2026 Rate Budget adopted in October, which also avoided the use debt financing for the projects adopted for 2026. In both cases, there is debt approved but not yet issued from previous years and debt in the forecast period, but for the immediate one-year capital budget to be adopted via this report, no new debt is recommended for the second year in a row.

A framework for the future utilization of facilities was recently adopted. Some of the recommendations outlined in that framework affect capital spending but may not be reflected in the Draft 2026-2035 Levy Capital Plan, as discussed during the October 21st, 2025 Special Council meeting. For example, work on certain facilities that were recommended to be disposed may still appear in the Draft 2026-2035 Levy Capital Plan to continue showing the scope of spending expected for those facilities. Future reports to declare those facilities surplus may come forward for Council's deliberation and at that time, if approved, amendments will be made to the capital plan to remove those projects. Similarly, additions or expansions may not appear in the Draft 2026-2035 Levy Capital Plan yet due to the timing of the two documents, or if they were dependent on other disposals.

Draft Levy Capital Plan (2026-2035)

Looking at the entire 10-year forecast period, \$750.7 million is planned for levy-related capital spending. This is an increase of \$66.3 million over the Final 2025-2034 Levy Capital Plan. The primary drivers of the changes are provided below:

- 1. (\$35.0) million Corporate Facility Centralization: removed per resolutions of Report OPS-25-004 as the acquisition of the Gilbertson Administration Building alleviates the need to build more administrative space for 10+ years.
- 2. \$32.7 million Reconstructions and Resurfacings: additional roads projects identified via the AMP to achieve approved service levels.
- 3. \$14.7 million Bridges and Culverts: additional structures projects identified via the AMP to achieve approved service levels.
- 4. \$9.6 million Fleet and Equipment: additional vehicle projects identified via the AMP to achieve approved service levels.
- 5. \$9.2 million EMS Bases: budget and timing updates to existing projects based on revised scoping, plus new projects estimated using updated \$/sq.ft. market rates.
- 6. \$7.8 million Drainage Construction: increased allocations based on re-evaluation of average annual petitions and Norfolk County portion of assessments.
- 7. \$6.9 million Right of Way Assets: additional projects for parking lots, sidewalks, traffic lights, etc. identified via the AMP to achieve approved service levels.
- 8. \$5.6 million Enterprise Resource Management System: cost estimates revised based on recent tenders of other municipalities for similar projects.

While forecasted spending increased, the drivers above show increases were not driven by escalating inflation or reactive maintenance in the early years of the forecast, unlike previous updates to the 10-Year Levy Capital Plan. Instead, most changes were driven by proactively adding projects throughout the forecast period to uphold appropriate service levels, after better identifying needs using an improved data-driven lifecycle approach, supported by the AMP adopted earlier this year. Staff view this as an important evolution to the County's capital planning process that should lead to renewal needs stabilizing in future updates to the 10-Year Levy Capital Plan.

Like Chart 1, Chart 2 summarizes project types (left), and how projects are being funded (right), but for the full 10-year forecast.

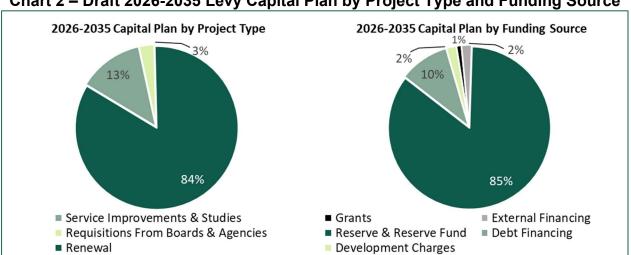

Chart 2 - Draft 2026-2035 Levy Capital Plan by Project Type and Funding Source

Renewal projects continue making up the majority of planned capital spending (84%), similar to Chart 1. As a reminder, these are projects recommended with the intent of maintaining current levels of service. There is an uptick in service improvements over the course of the 10 years though, as a few sizeable projects occur over the longer-term; mainly facility expansions. These strategic investments should draw the closest examination as service levels are considered.

On the right of Chart 2, it is shown that reserves continue funding the majority (85%) of all planned levy-related projects over the next 10 years. Compared to last year this is an improvement, which was expected as an outcome of Council's endorsement of the financial strategy. Contrasting to the one-year outlook in Chart 1, there are certain projects that are anticipated to require debt financing over the 10 years, but only 10%,

another improvement from the Final 2025-2034 Levy Capital Plan's 19% outlook. Further, 7% of this amount is for service improvements—still debt—but more acceptable for expensive and long-term strategic investments compared to standard renewal projects. Following the financial strategy's phase-in, eliminating the use of debt on all renewal projects would be ideal, a goal Norfolk is now well on the way towards.

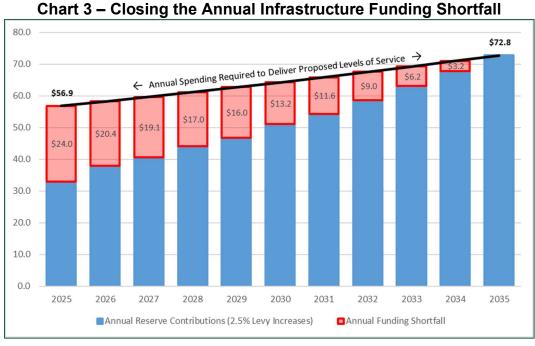

The right side of Chart 2 also includes a similar slice for development charges as Chart 1 (2%). However, it should be noted that roughly half of the total debt relates to forecasted DC debt. This debt is used when Development Charge Reserve Fund balances and ongoing DC collections are insufficient to fund DC-eligible projects at a given time. As a result, approximately 7% of the 10-Year Levy Capital Plan is expected to ultimately be funded by developers. Outcomes of a renewed DC Background Study may change these proportions materially in the near future. Chart 2 also adds a small slice for grants (1%). Staff only included grants as a funding source where funding has already been confirmed or projects are only recommended to be completed if grants can be secured (funding-contingent). Norfolk will apply for far more grants over the forecast period as opportunities arise, which may influence the funding mix in actuality.

Overall, the spending recommended in the 10-Year Levy Capital Plan exceeds \$750 million for investments in important public infrastructure like roads, facilities, equipment, parks, accessibility, and environmental protections. Combined with water- and wastewater-related investments adopted in last month's Rate Budget, Norfolk's 10-Year outlook reaches almost \$1.2 billion, a historic infrastructure investment for the County.

Infrastructure Funding - Reserves

Reserves are a critical tool for ensuring the County has money available to pay for infrequent or expensive projects. Over the past several years, the commentary around 10-Year Levy Capital Plan updates has focused on the importance of making sufficient reserve contributions and ensuring enough money is made available to fund all future needs of the County. Since last year, Council endorsed a financial strategy supported by the AMP which clearly quantified exactly what was meant by "sufficient" and established a clear path to future financial sustainability.

In Report EIS-25-021 2025 Asset Management Plan, a chart was included showing the County's current levy capital reserve contributions, how large the infrastructure funding shortfall was, how spending was expected to grow over 10 years, and how the financial strategy was expected to close the infrastructure funding shortfall. Staff are pleased to re-present an updated chart below.

As seen in Chart 3, spending required to deliver proposed levels of service is estimated to have increased due to inflation, but the financial strategy helped raise contributions enough to cut the annual infrastructure funding shortfall to \$20.4 million in 2026. By 2035, so long as the strategy continues to be endorsed, the County will raise its levy

capital reserve contributions to \$72.8 million annually, matching the estimated spending to deliver proposed levels of service and eliminating the infrastructure funding shortfall.

Each year the financial strategy should be re-examined for whether it is ahead of schedule or behind pace, so changing the annual increase percentage or length of the phase-in can be considered. Overall, post-AMP adoption for 2026, the financial strategy is still working exactly as intended and is on track.

Over this term of Council, staff have tried in different ways to quantify Norfolk's reserve contribution sufficiency. While the chart above accomplishes that in dollars (\$20.4 million annual shortfall for levy service areas), it is helpful to contextualize it in other ways, such as a percentage, which staff have tried to do in the past by comparing contributions to average annual spending in the 10-Year Capital Plan. Other than realizing contributions likely had to increase significantly, needing to lay the groundwork during this period by consolidating reserves and determining data limitations led to challenges like moving targets acting as barriers to communicating a clear path forward.

The completion of a fully-compliant AMP this year has generated a longer-term, stable, defensible target that Norfolk has been building towards establishing. While periodic reviews and updates of the County's asset values, asset service lives, and acquisitions or dispositions will still move this target, to use a consistent methodology moving forward, staff have developed a ratio for reserve contribution sufficiency that can be used to benchmark progress at any point in time. Table 1 shows this ratio, going back to the start of this term of Council.

Table 1 - Reserve Contribution Sufficiency

| - | | | | | | | |
|---------------|------|------|------|------|------|------|------|
| Year | 2022 | 2023 | 2024 | 2025 | 2026 | 2027 | 2028 |
| Sufficiency | 26% | 30% | 36% | 45% | 52% | 56% | 61% |
| Year (Cont'd) | 2029 | 2030 | 2031 | 2032 | 2033 | 2034 | 2035 |
| Sufficiency | 64% | 70% | 75% | 80% | 87% | 93% | 100% |

The sufficiency is calculated by taking the levy capital reserve contributions in a given year (e.g., \$37.9 million for 2026) and dividing it by the 2035 AMP target (\$72.8 million). 100% indicates the completion of the financial strategy and elimination of the annual infrastructure funding shortfall, currently on track for 2035.

It should be noted that many years ago, and even in recent years, the County did not know what it knows now in terms of how large the scale of its infrastructure spending target needed to be in order to maintain its service levels. The County could not have known, because the tools and information were not in place yet to have that understanding. This is a common challenge across many municipalities province-wide. Unfortunately, asset management knowledge and regulations are relatively new best practices in local government and have forced municipalities to scrutinize their processes / data more closely and face tougher investment decisions in recent years.

Recognizing the caveat above, if the AMP target was applied back to the start of this term of Council, reserve contribution sufficiency started at 26%, and next year will reach 52%. These are relatively small compared to the 100% target, but the progress is quite remarkable as sufficiency has doubled in just 4 years. This has had a big financial impact, illustrated by the amount of projects the County has undertaken without the use of debt in recent years. For example, the Final 2022-2031 Capital Plan included over \$94 million for levy-related debt compared to today's estimate of only \$76 million, despite forecasted 10-year levy capital spending increasing nearly \$300 million in that time.

To illustrate at a service area level, the recommended contributions to each of the County's levy capital reserves are included in Table 2 below, which shows the County's current level versus what will be included in the Draft 2026 Levy Operating Budget and how the contributions will phase into the sustainable level by 2035 that matches the target established in the AMP.

Table 2 – Recommended Reserve Contributions Compared to AMP Target

| Levy Capital Reserves* | 2025 Contribution | 2026 Contribution | 2035 Contribution | AMP Target |
|-------------------------------------|----------------------|----------------------|----------------------|----------------|
| Cemeteries Reserve | \$0.1 million | \$0.1 million | \$0.2 million | \$0.2 million |
| Drainage Construction Reserve | \$0.5 million | \$0.9 million | \$1.4 million | \$1.4 million |
| Facilities Reserve | \$5.9 million | \$6.4 million | \$13.7 million | \$13.7 million |
| Fleet Reserve | \$6.5 million | \$10.7 million | \$11.5 million | \$11.5 million |
| General Capital Replacement Reserve | \$5.1 million | \$3.7 million | \$6.6 million | \$6.6 million |
| Land Reserve | \$0.2 million | \$0.2 million | \$0.2 million | \$0.2 million |
| Roadway Construction Reserve | \$14.6 million | \$15.9 million | \$39.2 million | \$39.2 million |
| Total Levy Capital Reserves | \$32.9 million | \$37.9 million | \$72.8 million | \$72.8 million |

^{*}Table 2 only lists levy capital reserves included in the financial strategy. As a result, it excludes reserves for requisitions like the Library Reserve, operating reserves like the Contingency Reserve, and reserves funded from other revenues like the Parkland Reserve or DC Reserve Funds. Some of these excluded reserves may also have additional changes recommended to their contributions for 2026.

<u>Infrastructure Funding - Debt</u>

Debt is an important financing tool that that allows municipalities to make strategic infrastructure investments they otherwise would not be able to afford upfront, but it is important to monitor the use of debt and balance it with the County's own assets. Table 3 summarizes how Norfolk's debt evolved since last year's 10-Year Levy Capital Plan, and how it will continue to evolve next year and into the next decade.

Table 3 – Outstanding Debt as of 2025, 2026, and Projected through 2026-2034

| Outstanding Debt* | Existing (2025) | 2026 | 2027-2035 |
|--|--------------------|------------------|-------------------|
| Levy Debt at Start of Period | \$41.9 million | \$37.9 million | \$51.2 million |
| Planned Levy Debt during Period | 1 | \$17.7 million** | \$76.1 million*** |
| Levy Debt Repaid during Period | (\$4.0) million | (\$4.4 million) | (\$70.8) million |
| Levy Debt at End of Period | \$37.9 million | \$51.2 million | \$56.6 million |
| Total Debt at End of Period (incl. Rate) | \$70.8 million | \$163.2 million | \$280.9 million |

^{*}The entire table is inclusive of DC Debt for levy-related service areas.

As seen in Table 3, the County started 2025 with \$41.9 million levy-related debt (\$77.6 million total; not shown above). Throughout the year no new levy debt was issued and \$4.0 million of the levy-related debt was repaid (\$6.8 million total; not shown above), leaving the County with \$37.9 million levy-related debt to start 2026 (\$70.8 million total).

Over the course of 2026, the County could issue up to another \$17.7 million in levy-related debt, but if so, it would also repay up to \$4.4 million, leaving approximately \$51.2 million in levy-related debt at the end of next year (\$163.2 million total).

By the end of 2035, the County could be looking at up to \$56.6 million in levy-debt outstanding (\$280.9 million total debt). While the subject of this report is not water- or wastewater-related information, staff continue to emphasize rate affordability challenges because, as can be seen, the impacts of the Rate Budget on the County's debt trajectory are making up a far greater share across the years, which is exacerbated by the distribution of payers. Norfolk's smaller levy debt burden is borne by the County's entire population and supported by a net levy requirement of \$136.4 million (2025), while the much larger rate debt burden is borne by roughly half of the County's population and supported by a net rate requirement of only \$32.8 million (2025).

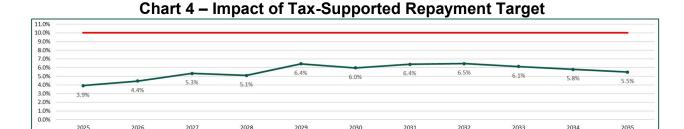

^{**}As discussed throughout the report, no new debt is expected to be required for projects being recommended in 2026, however, \$17.7 million of projects exist for which debt is an approved funding source but has not yet been issued. This also assumes all approved not yet issued debt, is issued in 2026, which may not be the case depending on how project spending progresses.

^{***}Excludes approx. \$0.6 million portion of rate-related debt for underground components of Project 5532514 Argyle Ave Ext. presented in this budget; otherwise matches the financing forecast on page 18 and figures noted throughout this report.

As noted in a previous section, approximately half of the levy-related debt forecast pertains to DC Debt, expected to be needed because DC Reserve Fund balances will be insufficient at the time of those projects. In these cases, DC collections pay for the debt servicing costs to ensure that growth still pays for growth, but an updated DC Background study is expected to help increase collections that may alleviate the need for a lot of these projects to eventually incur debt.

Generally, the County tries to minimize debt because interest charges make it an expensive form of financing, so as it relates to the operating costs of debt, in July, Council adopted GP-029 Debt Management Policy. That policy established a Tax-Supported Repayment Target to keep debt servicing costs (principal repayments + interest charges) below 10% of the net levy requirement. Chart 4 shows that the Draft 2026-2035 Levy Capital Plan's recommendations are compliant with this policy.

As seen in Chart 4, levy-related borrowing is anticipated to stay within a stable, reasonable level around the midpoint of a no debt scenario and the maximum target.

The Province of Ontario also outlines a legislated metric, called the Annual Repayment Limit, which mandates all debt servicing costs (not just levy-related borrowings) must stay below 25% of own source revenues. From a corporate perspective, the County is currently at 5.5%, and is projected to peak at 13.1% in 2031 using conservative assumptions, remaining compliant with this legislation. Compared to previous years, both measures have improved due to various decisions made over the year like the amendments disclosed in this report and utilization of surplus funds, for example. Decisions like those have led to a greater-than million dollar reduction to the Draft 2026 Levy Operating Budget for debt servicing costs as well, expanded on in the Finance Comments. Continued endorsement of the financial strategy to address the infrastructure funding shortfall will be crucial for maintaining this positive trajectory.

Finance Comments:

Council-in-Committee received Report EIS-25-021 2025 Asset Management Plan on June 12th, 2025, and adopted a resolution to include \$3,410,400, as an increase to the Draft 2026 Levy Operating Budget to address the infrastructure funding shortfall, equivalent to 2.5% of the net levy requirement. Later, the Mayor accepted this as a guideline in Report CS-25-105 Budget Timetable & Guidance, as part of the overall projected increase of 7.4% to the average residential taxpayer. The financing strategy designed for the Draft 2026-2035 Levy Capital Plan adhered to this guideline exactly, and the infrastructure funding changes recommended to accommodate the planned capital spending are included in Table 4 below for transparency.

Table 4 – Planned 2026 Infrastructure Funding Council Approved Initiative (CAI)

| Driver | Change | % of Net Levy |
|---|---------------|---------------|
| Reserve Contributions* | \$5,389,500 | 3.95% |
| Debt Servicing Costs | (\$1,714,200) | (1.26%) |
| Transfer from DC Reserve Fund | (\$264,900) | (0.19%) |
| Impact to Draft 2026 Net Levy Requirement | \$3,410,400 | 2.50% |

As discussed with the consideration of the AMP, more intensive analysis than ever went into projecting long-term increases sufficient to address the infrastructure funding shortfall, and 2.5% annually was approved in principle over a 10-year period. This achieves an appropriately data-driven level of investment while allowing the County to

ease off of bolder increases of 4.0%+ that were dedicated to infrastructure funding in recent years, achieving a more affordable and stable outlook for the 2026 budget cycle.

As the financial strategy has been optimized to accommodate the expenditures within this 10-Year Capital Plan, any adjustments to funding recommendations this year or over the next 10 years could have adverse impacts, underscoring the importance of continual commitment to this strategy. With the amount of spending forecasted, a deviation from this strategy without supporting analysis could lead to risks like taking on more debt, capital reserve balances returning to a negative outlook, or the need to defer projects which ultimately results in decreased asset condition.

Interdepartmental Implications:

All projects adopted from the Draft 2026 Levy Capital Budget will be completed by the project managers of the departments that recommended the projects.

Consultation(s):

The Draft 2026-2035 Levy Capital Plan was developed with extensive collaboration of all departments across Norfolk County and guidance from the Senior Leadership Team.

Strategic Plan Linkage:

Sustaining Norfolk - Creating a sustainable community and a positive legacy

Explanation: The 10-Year Levy Capital Plan is used to guide a realistic, affordable, and sustainable long-term financial strategy by establishing a solid infrastructure foundation.

^{*}Includes Development Charge (DC) Debt of \$1,491,000 in 2027, \$5,782,000 in 2028, \$11,000,000 in 2029, \$4,552,000 in 2030, \$9,574,000 in 2031, \$1,265,000 in 2032, \$133,000 in 2033, and \$1,330,000 in 2034, for a total of \$35,127,000.

2. OFFICE OF THE CAO

The Office of the CAO is an administrative division that provides strategic direction to the rest of the County. As a result, it has a minimal capital plan and most projects are led by other divisions, although it includes some studies to support Council's strategic plan.

Human Resources

Strategic Initiatives

Economic Development

Key Capital Projects

| Transit Master Plan | The Draft Capital Plan includes \$195,000 in 2034 to conduct a 10-year update to the County's Transit Master Plan to determine the path forward for the service. |
|---------------------------------------|--|
| Economic Development Strategy Updates | The Draft Capital Plan includes \$180,000 over the next 10 years for the department to update their economic data and tailor a new four-year plan following Council's new strategic priorities being approved. |
| Wayfinding Signage Strategy | The Draft Capital Plan includes \$150,000 in 2027 to analyze location, condition, and relevance of existing signage, and then implement a more consistent and updated brand across the County. |
| Strategic Priority Updates | The Draft Capital Plan includes \$121,000 over the next 10 years for future terms of Council to develop their strategic plans that will shape the County's direction moving forward. |

3. COMMUNITY AND DEVELOPMENT SERVICES

The Community and Development Services division combines the management of the County's current operations with its future growth. As a result, its capital plan mixes renewal projects for existing assets with a lot of service improvements and periodic studies.

Fleet and Facilities Services

Parks, Recreation and Culture

Building and By-Law Services

Planning and Realty Services

Key Capital Projects

| Vehicles & Equipment Renewal | The Draft Capital Plan includes over \$40 million over the next 10 years to maintain the County's entire fleet of licensed vehicles in a state of good repair. |
|-------------------------------------|---|
| Expansion & Renovation - SRC / ACAC | The Draft Capital Plan includes over \$20 million by 2029 for the construction of upgrades to the Simcoe Recreation Centre / Annaleise Carr Aquatic Centre. |
| 2026 Facilities Renewal Projects | The Draft Capital Plan includes \$6,600,000 in 2026 to complete repairs to the County's facility portfolio with the goal of returning it to a state of good repair. |
| Talbot Gardens Ice Rink & Bleachers | The Draft Capital Plan includes \$5,126,000 by 2028 to refurbish the interior of Talbot Gardens, including replacement of the ice surface and refrigeration components, dasher boards, and spectator seating. |

4. CORPORATE SERVICES

The Corporate Services division primarily offers support services to residents and the County's other divisions. As a result, it has a minimal capital plan including a mix of studies and technological hardware and software to ensure the rest of the County continues operating smoothly.

Finance

Legislative Services

Customer Service and Communications

Information Technology

| Enterprise Resource Management System | The Draft Capital Plan includes over \$10 million by 2027 to implement an ERM. With the financial system provider ending support and other departments using legacy systems, this will connect the County's systems. |
|--|---|
| Information Technology Replacement Program | The Draft Capital Plan includes \$4,006,000 over the next 10 years to maintain IT like phones and computers, as well as network infrastructure needed to keep a strong firewall. |
| Barrier Free Access Program | The Draft Capital Plan includes \$918,000 over the next 10 years to implement recommendations of the Accessibility Advisory Committee. |
| Ward Boundary Review | The Draft Capital Plan includes \$100,000 in 2027 for conducting a periodic review of ward boundaries to ensure County residents continue to receive equitable representation. |

5. EMERGENCY AND SOCIAL SERVICES

The Emergency and Social Services division provides front-line services to County residents. As a result, it has a substantial capital plan that includes lots of renewal projects that keep equipment and facilities on top of industry standards to provide safety across the County.

Fire

Paramedics

Housing and Social Services

Long-Term Care

Key Capital Projects

| Fire Station Replacements | The Draft Capital Plan includes over \$40 million over the next 10 years to replace many of the County's fire stations with upgraded facilities, starting with the most in-need facility in St. Williams as early as 2027. |
|----------------------------|---|
| Paramedic Base Expansions | The Draft Capital Plan includes over \$30 million over the next 10 years to expand the County's paramedic bases, including a new headquarters scheduled for 2031 which will help reduce operational constraints. |
| New Aerial Fire Truck | The Draft Capital Plan includes \$3,359,000 in 2031 to add an additional aerial apparatus to the Fire Department's fleet to address risks as Norfolk continues growing with multi-level developments. |
| Norview Siding Replacement | The Draft Capital Plan includes \$820,000 over the next 10 years to complete the final phases of siding replacement on the exterior of Norview Lodge. |

6. PUBLIC WORKS

The Public Works division is responsible for infrastructure that County residents use everyday. As a result, it has an intensive capital plan including an extensive amount of renewal projects, as well as some new additions. The 2026 Rate Budget included all Water and Wastewater capital projects.

Roads

Environmental Services

Engineering and Asset Management

Water & Wastewater Capital Construction

Key Capital Projects

| Leamon St. Reconstruction | The Draft Capital Plan includes \$5,000,000 in 2026 to reconstruct Leamon St. from Nichol St. to Thompson Road (1km), including the underground watermain and sanitary and storm sewers. |
|----------------------------------|--|
| Shoreline Protection Initiatives | The Draft Capital Plan includes \$4,806,000 by 2033 to enhance shoreline protection at three priority sites based on the evaluations presented to Council in 2024 and further assessments completed in 2025. |
| McDowell Road Resurfacing | The Draft Capital Plan includes $\$3,500,000$ in 2026 to resurface McDowell Road from Highway 59 to Charlotteville West $\frac{1}{4}$ Line Road (10km) and restore it to a very good condition. |
| Argyle Ave Extension | The Draft Capital Plan includes \$1,985,000 by 2027 to extend Argyle Ave from the Bluegrass Phase 4 Subdivision to Fertilizer Road, providing a new road connection in Delhi. |

^{*}Includes Development Charge (DC) Debt of \$800,000 for Project 5632804 Traffic Signals - Norfolk & Decou in 2028.

7. REQUISITIONS FROM BOARDS & AGENCIES

The County also plans for capital from the boards and agencies that work with Council. Requisitions are the capital requests that come from these organizations, that generally include funding commitments made by Council to support the strategic plans of these boards and agencies.

Norfolk County Public Library

Police

Long Point Region Conservation Authority Haldimand-Norfolk Housing Corporation

Key Capital Projects

| Long Point Region Conservation Authority | The Draft Capital Plan includes \$4,974,000 over the next 10 years to support the LPRCA in maintaining environmentally-important dams located across the County. |
|---|--|
| Library Materials Program | The Draft Capital Plan includes \$3,870,000 over the next 10 years to keep materials at the County's Library branches updated and available for a growing community. |
| Repair & Renewal Program | The Draft Capital Plan includes \$1,257,000 in 2026 to implement HNHC's repair and renewal program across nine community housing locations in Norfolk. |
| Waterford Branch Courtyard Revitalization | The Draft Capital Plan includes \$160,000 by 2029 for upgrading the outdoor space to support seasonal programming for a longer duration of the year and provide a new quality space for community use. |

2132701 2026 Norfolk County Strategic Priority Update

Division:Office of the CAODepartment:Strategic InitiativesCapital Expenditures:\$ 36,000Lifecycle Costing:\$ 9,000Useful Life (Years):4

Overview:

This project will provide for an update to the Norfolk County Strategic Priorities for the next term of Council, 2026-2030. Committing to strategic priorities will allow Council to respond to community feedback, as well as build a progressive, forward-thinking County specific to Norfolk's demands.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |

| Development Charges | | · | | 0 |
| Total Funding | 36,000 | 0 | 0 | 36,000 |

Justification

The Norfolk County Strategic Plan outlines the mission, vision, and values of Norfolk and establishes a road map for the future of the County. At the start of each term of Council, strategic priorities are periodically reviewed to ensure they remain consistent with what Council is hearing from the community. This project is intended to continue building on the existing 2022-2026 Strategic Plan to enhance the day-to-day experience of our residents.

The priorities focus on things like improving and maintaining infrastructure, strengthening the agricultural sector, prioritizing local businesses and organizations, and planning for future growth. It's a blueprint Council will use to guide information they would like staff to bring forward over the rest of their term.

Alignment with 2022-2026 Strategic Plan

Empowering Norfolk
 Building Norfolk
 Connecting Norfolk
 ✓ Serving Norfolk
 Sustaining Norfolk

Periodically re-evaluating strategic priorities aligns with creating an environment of continuous improvement.

Business Case for Service Improvements or Studies

5332612 2026 Video Surveillance Program

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 150,000 Lifecycle Costing: \$ 150,000 Useful Life (Years): 1

Overview:

This project is part of an annual program that supports the installation of video surveillance cameras at various Norfolk County facilities. Video surveillance cameras provide valuable information to law enforcement during crime investigations and can reduce the number of incidents at County buildings.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 150,000 | | | 150,000 |
| Total Expenditures | 150,000 | 0 | 0 | 150,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 150,000 | | | 150,000 |
| Development Charges | | | | 0 |
| Total Funding | 150,000 | 0 | 0 | 150,000 |

Justification

Video surveillance provides footage that is used to help resolve incidents at County facilities, as well as provides a deterrent to reduce potential incidents as a proactive approach to security. A reduction in the number of incidents that video cameras provide will improve well-being of facility users and have positive impacts on insurance premiums in future years. Video surveillance footage is very valuable when prosecuting crimes and is the first request of law enforcement when investigating incidents.

Currently 34 County buildings have video surveillance systems. Remaining allocations of this program will ensure all County facilities become equipped with systems. Locations will be prioritized annually based on recommendations from risk management incident reports. The current schedule of installations utilizing this capital project will be: Simcoe Lions Park, Port Dover Kinsmen Park, Simcoe Recreation Centre / Annaleise Carr Aquatic Centre, Norfolk County Garage, Simcoe Memorial Park, Courtland Operations Building, West Roads Operations Yard.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 □ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 ☑ Sustaining Norfolk

Putting better video surveillance in place helps ensure a sustainable resource strategy and protects infrastructure.

5532615 2026 LED Street Lighting Retrofit Program

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 105,000 Lifecycle Costing: \$ 8,750 Useful Life (Years): 12

Overview:

This project is part of an annual program endorsed through the 2024-2029 Energy Conservation and Demand Management Plan to replace high pressure sodium street lamps and fixtures with more efficient and environmentally-friendly LED bulbs.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 15,000 | | | 15,000 |
| Construction | 90,000 | | | 90,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 105,000 | 0 | 0 | 105,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 105,000 | | | 105,000 |
| Development Charges | _ | | | 0 |
| Total Funding | 105,000 | 0 | 0 | 105,000 |

Justification

Between 2019-2024 the County retrofitted approximately 3,825 inefficient, T12 incandescent high pressure sodium lamps and fixtures with LED bulbs, which has resulted in significant energy savings and utilities cost savings.

Annual allocations will be used to continue retrofitting existing street lighting assets that are approaching the end of their service life and continue this progress by replacing outdated or inefficient lamps with energy-efficient LED technology. LED fixtures use approximately 50% less electricity and have approximately four times the expected life of equivalent high pressure sodium fixtures, both of which decrease operating costs to the County whether it be through utilities or maintenance savings.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk Building Norfolk |
|--------------|-------------------------------------|
| | Connecting Norfolk |
| \checkmark | Serving Norfolk |
| | Sustaining Norfolk |

Upgrading street lighting to LED supports an environment of continuous improvement.

Business Case for Service Improvements or Studies

5332606 CCA - Weather Stations, Tree Planting, Conservation Strategy

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 110,000 Lifecycle Costing: \$ 1,467 Useful Life (Years): 75

Overview:

This annual program supports the implementation of climate change adaptation measures in collaboration with multiple County departments. For 2026, the allocation is proposed to be used for the installation of weather stations, undertaking tree planting, and a completing a conservation strategy as supported by Norfolk County's in Climate Change Adaptation Plan.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 110,000 | | | 110,000 |
| Total Expenditures | 110,000 | 0 | 0 | 110,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 110,000 | | | 110,000 |
| Development Charges | | | | 0 |
| Total Funding | 110,000 | 0 | 0 | 110,000 |

Justification

In February 2021, Council received the Climate Change Adaptation Plan report. This report expanded on existing adaptation actions Norfolk County was already taking and seeks to implement additional measures to further mitigate climate change.

For 2026, recommendations include implementing six localized weather stations to provide real-time precipitation, temperature, and flood monitoring to improve situational awareness during weather events. They not only support emergency response, but also infrastructure resilience.

A portion of the allocation is also recommended to continue increasing Norfolk's tree canopy via tree planting, which helps sequester carbon and reduce heat impacts.

Finally, developing a comprehensive conservation strategy will help protect against the harmful effects of climate conditions like storms, floods, heat and droughts on our agriculture, wildlife, and shorelines.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|--------------|---------------------------|
| Ш | Building Norfolk |
| | Connecting Norfolk |
| | Serving Norfolk |
| \checkmark | Sustaining Norfolk |

Implementation of these initiatives is aligned with enhancing Norfolk's climate action strategies.

Business Case for Service Improvements or Studies

3332004 Elevator Installation - Langton Arena

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$1,000,000 Lifecycle Costing: \$28,571 Useful Life (Years): 35

Overview:

This project will begin the design / engineering phase for the construction of an elevator at the Langton Arena. The overall project will include the construction of the elevator, scheduled for 2027.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 100,000 | | | 100,000 |
| Construction | | 900,000 | | 900,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 100,000 | 900,000 | 0 | 1,000,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | 900,000 | | 900,000 |
| Reserve & Reserve Funds | 100,000 | | | 100,000 |
| Development Charges | | | | 0 |
| Total Funding | 100,000 | 900,000 | 0 | 1,000,000 |

Justification

The second floor of the Langton Arena is currently inaccessible for persons requiring a mobility device. This need was identified in 2018 as a result of numerous requests from the public regarding the inability to access the second floor of the building.

The Langton Arena's main warm viewing area within the facility is currently on the second floor. Installing an elevator in this building would greatly reduce barriers and comply with AODA standards. Engineering and feasibility studies for the potential elevator will be completed ahead of time to to determine if an elevator is feasible as is or if an expansion will be required.

Construction is currently anticipated for 2027, and should this project be viable with potential for grant eligibility staff will seek those funding opportunities.

Alignment with 2022-2026 Strategic Plan

| | oustaining Norton |

Adding an elevator to the Langton Arena provides accessible and equitable service options.

Business Case for Service Improvements or Studies

5332617 County Facility Backflow Prevention Program

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 100,000 Lifecycle Costing: \$ 5,000 Useful Life (Years): 20

Overview:

This project supports the installation of backflow prevention systems at County-owned facilities for the protection of the wider water distribution system. This work is required by the Ministry of Environment, Conservation and Parks (MECP).

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | | | | 0 |
| Construction | 100,000 | | | 100,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 100,000 | 0 | 0 | 100,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 100,000 | | | 100,000 |
| Development Charges | | | | 0 |
| Total Funding | 100,000 | 0 | 0 | 100,000 |

Justification

The Ministry of the Environment, Conservation and Parks (MECP) requires a backflow prevention program be in place. This program prevents high risk industries (hospitals, car washes, funeral homes, etc.) from over-pressurizing their internal plumbing and sending contaminated water back into the municipal drinking water system. Norfolk County is currently rolling out a formal backflow program to address these concerns but prior to auditing the County's IC&I sector, Norfolk's own facilities must first become compliant.

Through initial surveys it was found that approximately 57 County-owned facilities do not have backflow prevention devices. Last year, Council approved funding to start the program and installations began in 2025, with the remaining work to be completed through this allocation of funds in 2026.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|---|--------------------|
| | Building Norfolk |
| Ш | Connecting Norfolk |
| | Serving Norfolk |

Implementing a County backflow prevention program helps provide a solid infrastructure foundation.

Business Case for Service Improvements or Studies

5332728 PA System Installation at County Buildings

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$21,000 Lifecycle Costing: \$1,400 Useful Life (Years): 15

Overview:

This project includes the installation of new PA Systems at County facilities. PA Systems are recommended to keep building users safe following the removal of landline telephones in County facilities. For 2026, the installation locations include the Culver Operations Building and the Delhi Administration Building.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 21,000 | | | 21,000 |
| Total Expenditures | 21,000 | 0 | 0 | 21,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 21,000 | | | 21,000 |
| Development Charges | | | | 0 |
| Total Funding | 21,000 | 0 | 0 | 21,000 |

Justification

With the removal of landline phones at staff workstations, there are currently no PA systems installed at the various administration buildings throughout the County. PA Systems can play a vital role in emergency response situations through clear voice instructions which are essential for the safety of staff and visitors. They can also support daily operations as they can be used for for general announcements and calling for individuals.

Council approved an allocation in previous years to start PA System installations which are being completed throughout 2025 such as at the County Administration Building. As part of 2026's allocation, PA System installations are scheduled for the Culver Operations Building and Delhi Administration Building. Additional PA Systems will be recommended in the future for County facilities years where buildings are not currently equipped and the necessity exists.

Alignment with 2022-2026 Strategic Plan

5332813 Corporate Renewable Energy Feasibility Study

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 98,000 Lifecycle Costing: N/A Useful Life (Years): N/A

Overview:

This project is recommended to conduct a study on the renewable energy solutions for the corporation,, and follows through with a recommendation of the 2024-2029 Energy Conservation and Demand Management Plan.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 98,000 | | | 98,000 |
| Total Expenditures | 98,000 | 0 | 0 | 98,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 98,000 | | | 98,000 |
| Development Charges | _ | | | 0 |
| Total Funding | 98,000 | 0 | 0 | 98,000 |

Justification

In June 2024, Council received the 2024-2029 Norfolk County Energy Conservation and Demand Management Plan (ECDM). The ECDM Plan recommended a standalone Corporate Renewable Energy Feasibility Study to expand the outcomes of the ECDM by better identifying cost-saving renewable energy solutions. The study will also investigate ways to enhance energy resilience and support meeting the ECDM Plan's consumption and emission reduction targets. It will also position the County to access further funding opportunities which often require support communicating energy conservation information.

The study will also provide a strategic road map to balance environmental, economic, and operational priorities, extending the ECDM Plan's vision for a sustainable Norfolk County by identifying viable clean energy options that reduce Norfolk's carbon footprint and operating costs, while improving infrastructure resilience to climate impacts. Staff have identified potential funding opportunities that are available to pursue in order to help offset the cost of undertaking this study as well.

Business Case for Service Improvements or Studies

5432615, 5432647, 5432718 SUV Replacements (2x) - Conversions

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$86,000 Lifecycle Costing: \$12,286 Useful Life (Years): 7

Overview:

These three projects each include the removal of one pick-up truck from the fleet inventory and addition of two additional new SUVs. This conversion would result in cost savings while adding an additional unit to the fleet. The pick-up truck units to be replaced are P011, P015, and P020.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 86,000 | | | 86,000 |
| Total Expenditures | 86,000 | 0 | 0 | 86,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 86,000 | | | 86,000 |
| Development Charges | | | | 0 |
| Total Funding | 86,000 | 0 | 0 | 86,000 |

Justification

Fleet is proposing to convert one of the current pick-up trucks into two different cheaper vehicles. The anticipated budget for two SUVs is similar to that of one pick-up truck and result in adding an additional unit to the fleet, increasing flexibility, adding redundancy, and decreasing downtime due to maintenance.

With the aging fleet inventory, staff are noticing an increasing amount of units coming off the road due to cost of repair and the condition of the units. Adding an additional unit would aid in bringing the fleet back to the necessary levels. With the centralization of staff to GAB, there will be a larger access to a pool of vehicles, which will help reduce mileage and rental charges. While pick-up trucks are still needed for certain positions, the need for pick-up trucks has been re-rationalized for many positions and staff have explored a wider group of positions that can operate effectively in SUVs, yielding an opportunity for potential cost savings through the conversions of these cheaper vehicle types. These vehicles would remain with the position through any personnel changes.

Alignment with 2022-2026 Strategic Plan

Business Case for Service Improvements or Studies

5432616 Side Flail Mower

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 22,000 Lifecycle Costing: \$ 1,467 Useful Life (Years): 15

Overview:

This project supports the purchase of the first side flail mower for the County.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 22,000 | | | 22,000 |
| Total Expenditures | 22,000 | 0 | 0 | 22,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 22,000 | | | 22,000 |
| Development Charges | | | | 0 |
| Total Funding | 22,000 | 0 | 0 | 22,000 |

Justification

This piece of equipment would be a new addition to Norfolk County. The side flail mower will be utilized for the maintenance of trails, parks, and roadside grass and foliage to manage vegetation and growth. A side flail mower is better designed to deal with thicker brush and can mulch sticks / weeds unlike a typical lawn mower. Being side-mounted, it is ideal for uneven terrain and cutting along embankments such as rural ditching, providing a more efficient and effective option than a typical lawn mower for this service.

Currently, the fleet does not include a side flail mower. Adding this piece of equipment to the inventory would result in greater efficiencies during the routine maintenance schedules of parks, trails, and roadsides, and assists in creating a welcoming environment for Norfolk County residents and visitors.

5432640 Enhancement of Automated Vehicle Locating System

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 500,000 Lifecycle Costing: \$ 50,000 Useful Life (Years): 10

Overview:

This project will update the County's automated vehicle location system with numerous upgrades like tablets and scan in systems in vehicles. AVL coverage will be rolled out to more units as well, including equipment like loaders and graders for the first time.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 500,000 | | | 500,000 |
| Total Expenditures | 500,000 | 0 | 0 | 500,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 500,000 | | | 500,000 |
| Development Charges | | | | 0 |
| Total Funding | 500,000 | 0 | 0 | 500,000 |

Justification

The existing AVL system assists in proving compliance with the Ontario Minimum Maintenance Standards, particularly during winter control season. Data is gathered that can be used to inform fleet when and where vehicles are at all times. This enables the ability to assist Risk Management staff when dealing with insurance claims.

Furthermore, an AVL system provides key information to staff. AVL are currently in the majority of licensed equipment in the County's fleet inventory. Staff are looking to expand the AVL program into the unlicensed category of equipment including loaders, graders, and backhoes. Additionally, the enhancement will include the addition of tablets into vehicles to streamline vehicle inspections, and the use of a driver scan in device which would allow County staff to track legislated hours of service in an efficient manner.

Business Case for Service Improvements or Studies

5432649, 5432650 New Fleet Service Vans

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$85,000 Lifecycle Costing: \$12,143 Useful Life (Years): 7

Overview:

These projects each support the purchase of a new service van for the fleet inventory. These new vans would replace the past practice of converting older out of service model ambulances for wider fleet purposes.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 85,000 | | | 85,000 |
| Total Expenditures | 85,000 | 0 | 0 | 85,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 85,000 | | | 85,000 |
| Development Charges | | | | 0 |
| Total Funding | 85,000 | 0 | 0 | 85,000 |

Justification

In previous years, Norfolk County's Fleet department has utilized ambulances that are coming off the road as an opportunity for operational savings by retrofitting the vehicles to serve as field service vans moving forward. However, in practice, the extended useful life of ambulances are leading to the reality that by the time they come off the road it is no longer economical to convert them for new purposes. This is because they are far past a fair condition and once they go into service as a van, they require significant amounts of maintenance following the conversions just to continue operating.

As a result, Fleet is now proposing to purchase vans, and upfit the interiors rather than continuing the practice of converting used ambulances. It is expected a small cost savings will be realized in repairs and maintenance costs as the work on past-useful life vehicles decreases. The vans will be better designed with shelving and features to carry various types of tools and small equipment throughout the County as well and improve operational performance.

Business Case for Service Improvements or Studies

5432651 Forks for Delhi Loader

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures:\$ 20,000Lifecycle Costing:\$ 1,111Useful Life (Years):18

Overview:

This project supports the purchase of fork attachments for the existing loader at the Delhi Operations Yard. Currently the loader at the Delhi Yard is not equipped with a set of forks, however having the attachment installed would increase operational efficiencies and reduce the need for other pieces of equipment, such as a forklift.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |

| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 20,000 | | | 20,000 |
| Development Charges | | | | 0 |
| Total Funding | 20,000 | 0 | 0 | 20,000 |

Justification

Fork attachments for loaders increase operational efficiency and versatility by allowing the machine to safely lift and move palletized loads, bulky items, and other materials. A primary benefit of this attachment includes increasing productivity by reducing time and effort to load, unload, and stack heavy items on or with other pieces of equipment.

Forks provide a stable and secure grip of materials reducing the risks of loads shifting and falling during transport and providing a much safer work environment. These pieces of equipment are also cost effective, easy to maintain, and multi-functional, reducing the need for other specialized heavy machinery in the County's fleet inventory.

5432652 Thumb for Delhi Backhoe - B093

Project Summary

Division: Community and Development Services

Department: Fleet and Facilities Services

Capital Expenditures: \$ 27,000 Lifecycle Costing: \$ 2,250 Useful Life (Years): 12

Overview:

This project supports the purchase of a thumb attachment for the existing backhoe at the Delhi Operations Yard. Currently, the backhoe at the Delhi yard (unit B093) is not equipped with this attachment and having it available would increase efficiencies, provide better control, and enhance the operational safety of the unit.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 27,000 | | | 27,000 |
| Total Expenditures | 27,000 | 0 | 0 | 27,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 27,000 | | | 27,000 |
| Development Charges | | | | 0 |
| Total Funding | 27,000 | 0 | 0 | 27,000 |

Justification

The Delhi Operations Yard would benefit from purchasing a thumb attachment for the existing backhoe in its heavy equipment inventory in order to achieve greater operational efficiencies and increased versatility.

A thumb attachment provides many benefits for the operation of the backhoe including enhanced precision and control over delicate tasks such as the moving of cement, debris, logs, and pipes which are difficult to pick up with the bucket alone. A thumb also offers an additional level of safety working with the equipment by providing a more secure and stable grip of the items being relocated which can reduce the risks of of loads slipping or falling unexpectedly.

Finally, a thumb attachment transforms the backhoe into a multi-functional tool, reducing the need for additional attachments and other specialized pieces of equipment making it a worthwhile expansion of the County's fleet and equipment inventory.

7332620 Turf Roller

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures:\$ 15,000Lifecycle Costing:\$ 750Useful Life (Years):20

Overview:

This project includes the purchase of a turf roller for Parks West in order to provide upkeep for numerous sports fields, open grass areas, and recreational spaces used daily by the public. The investment in a turf roller supports short-term operational needs, long-term asset management goals, and the safety and well being of residents using these spaces.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 15,000 | | | 15,000 |
| Total Expenditures | 15,000 | 0 | 0 | 15,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 15,000 | | | 15,000 |
| Development Charges | | | | 0 |
| Total Funding | 15,000 | 0 | 0 | 15,000 |

Justification

Turf maintenance is a core component of parks management, ensuring that surfaces remain level, healthy, and safe for recreational use. A new turf roller will help create smoother and more even playing surfaces, reducing trip hazards and improving athlete safety across soccer fields, baseball diamonds, and general recreation areas. Investing in a new turf roller for Parks West is essential to maintain field quality, reduce safety risks, and increase maintenance efficiency.

This investment improves operational efficiency by reducing manual labor and wear on existing less purposeful equipment, ultimately lowering long-term maintenance costs. Additionally, providing staff with modern, effective tools fosters a safer, more satisfying work environment, empowering them to deliver high-quality service.

7332619 Accessible Play Park - Waterford Cedarwood Park

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures: \$ 440,000 Lifecycle Costing: \$ 22,000 Useful Life (Years): 20

Overview:

This project will begin the design / engineering phase for a play park. The overall project will include the construction of a new play park at Cedarwood Park in Waterford, scheduled for 2027.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 40,000 | | | 40,000 |
| Construction | | 400,000 | | 400,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 40,000 | 400,000 | 0 | 440,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 220,000 | | | 220,000 |
| Development Charges | 220,000 | | | 220,000 |
| Total Funding | 440,000 | 0 | 0 | 440,000 |

Justification

As a progressive and inclusive community, Norfolk must ensure that all children, regardless of ability, have equal access to play. A fully accessible play park in Cedarwood Park would provide a safe, engaging environment where children living with disabilities can play alongside their peers. Accessible play equipment encourages physical activity, improves motor skills, and boosts confidence. It also provides critical opportunities for cognitive development and social interaction, supporting emotional and mental health for children and their families.

Investment in inclusive infrastructure ensures long-term utility and adaptability of public spaces. An accessible play park is not just a one-time expenditure, but a sustainable, future-proofed asset that will serve generations. A fully accessible play park in Cedarwood Park is a practical and forward-thinking investment in Waterford's future. It reflects the values of equality, inclusion, and community. Installation of a new playground supports growth in this area and as a result is anticipated to be eligible for a reasonable proportion of development charges funding.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Adding a play park in Waterford helps support infrastructure that ensures complete communities.

Business Case for Service Improvements or Studies

7331941 Lynn River Silt Trap - Clifton Park Simcoe

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures: \$50,000 Lifecycle Costing: \$5,000 Useful Life (Years): 10

Overview:

This project includes the replacement of two silt traps located in the Lynn River in Clifton Park, Simcoe, plus the construction of one new larger silt trap. This work is important to protect water quality, prevent erosion, and ensure compliance with environmental regulations.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | | | | 0 |
| Construction | 50,000 | | | 50,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 50,000 | 0 | 0 | 50,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 50,000 | | | 50,000 |
| Development Charges | | | | 0 |
| Total Funding | 50,000 | 0 | 0 | 50,000 |

Justification

Silt traps are important as they help maintain water quality, prevent soil erosion, protect fish habitats, and ensure proper drainage. Silt traps require ongoing monitoring and maintenance to avoid downstream drainage systems becoming completely blocked and leading to flooding or system failure. Otherwise, costly excavation should be completed every 2-5 years to remedy silt / erosion. Ongoing silt trap maintenance programs are cheaper and require less frequent interventions, scheduled for every 10 years.

The intent of this project is to replace two silt traps in the Lynn River with one larger silt trap approximately 20' long, 8' deep, 15' wide. Staff have been working with the LPRCA on the maintenance of the existing silt traps and based on consultations with them, this project has been recommended in the past but continually been deferred until this year. Now, with additional years of wear and tear on these traps, it is becoming more important than ever to prioritize this upgrade in order to avoid potentially costly repairs and excavation in the future.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|--------------|---------------------------|
| | Building Norfolk |
| | Connecting Norfolk |
| | Serving Norfolk |
| \checkmark | Sustaining Norfolk |

Replacing the silt traps supports the community while respecting the environment.

Business Case for Service Improvements or Studies

7332412 East Field Lighting - McLaughlin Soccer Park

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures:\$ 120,000Lifecycle Costing:\$ 4,800Useful Life (Years):25

Overview:

This project will begin the design / engineering phase of lighting towers. The overall project will include the installation of the towers around the east field of McLaughlin Soccer Park, including all lights and hydro connectivity, scheduled for 2027.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 20,000 | | | 20,000 |
| Construction | | 100,000 | | 100,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 20,000 | 100,000 | 0 | 120,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 120,000 | | | 120,000 |
| Development Charges | | | | 0 |
| Total Funding | 120,000 | 0 | 0 | 120,000 |

Justification

Norfolk Soccer Club has continued to grow their membership over the last five years and players are continuing to play later in life. The last couple years they have had multiple junior and senior teams. Lighting both fields would allow for multiple games to be played per night and alleviate inconvenient scheduling time. This would potentially allow the club to also host bigger tournaments, bringing a boost to Norfolk County's economy.

Lighting installations have already been completed on the west field of the soccer park and at that time, the underground electrical connections were installed in anticipation of future lighting connections on the east soccer pitch. As a result of this proactive measure, some cost avoidance for this this project has been achieved as the connectivity already exists.

The Norfolk Soccer Club is very independent, has a record of partnering with Norfolk County on various projects. They have expressed a willingness to contribute with this project should it be approved to proceed.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|----------------|---------------------------|
| | Building Norfolk |
| | Connecting Norfolk |
| \overline{V} | Serving Norfolk |
| | Sustaining Norfolk |

Adding lighting to the East Field of McLaughlin Soccer Park strengthens service delivery.

Business Case for Service Improvements or Studies

7332621 Simcoe Kinsmen Splash Pad Sun Shade

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures: \$ 25,000 Lifecycle Costing: \$ 1,000 Useful Life (Years): 25

Overview:

This project involves the installation of a new 16' x 16' sunshade at the Simcoe Kinsmen Splash Pad. The purpose of the purchase is to provide a shaded area for parents and their children, helping to protect them from sun exposure on hot days when the splash pad is most frequently used.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 25,000 | | | 25,000 |
| Total Expenditures | 25,000 | 0 | 0 | 25,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 25,000 | | | 25,000 |
| Development Charges | - | · | | 0 |
| Total Funding | 25,000 | 0 | 0 | 25,000 |

Justification

This project includes the installation of a new 16' x 16' sunshade on the east side of the splash pad property. The Simcoe Kinsmen Splash Pad is a great place for Norfolk's community members to cool off on a hot day, but over the years staff have received numerous pieces of feedback from the public about the lack of shade around the splash pad. Sun exposure can cause many health side effects to our residents especially on hot sunny days where the splash pad is most heavily used. For context, in the summer months the splash pad could have 30-40 people using the facility on any given day.

Staff recommend addressing the community feedback by installing the 16' x 16' sunshade to more people who use the splash pad safe and shaded. By installing this sunshade, staff would improve service levels to the Simcoe Kinsmen Splash Pad and address community members' concerns.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|--------------|---------------------------|
| \checkmark | Building Norfolk |
| | Connecting Norfolk |
| | Serving Norfolk |
| | Sustaining Norfolk |

Adding a sun shade to the Simcoe Splash Pad area will help ensure the health, safety, and well-being of the community.

Business Case for Service Improvements or Studies

7332635 Archaeological Assessment and Columbarium - Bayview

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures: \$ 145,000 Lifecycle Costing: \$ 11,154 Useful Life (Years): 13

Overview:

The location at the Bayview Cemetery has been impacted by the discovery of First Nations Artifacts. This discovery has resulted in the halting of grave sales and significant costs to conduct archaeology and monitoring on the site. This project proposes conducting Stage 3 archaeological work and investigating the addition of more columbaria.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | 60,000 | | | 60,000 |
| Construction | | | | 0 |
| Purchases / Other | 85,000 | | | 85,000 |
| Total Expenditures | 145,000 | 0 | 0 | 145,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 145,000 | | | 145,000 |
| Development Charges | | | | 0 |
| Total Funding | 145,000 | 0 | 0 | 145,000 |

Justification

Columbaria are a wise use of cemetery land, with the ability to accommodate a higher density of interments in a smaller footprint. As a result, the development of columbaria in cemeteries have the added benefit of extending the life of the cemetery. For Bayview, a columbarium addition has the benefit of eliminating interment delays for cremation, reduction of ground disturbance on artifacts, and elimination of a portion of archaeological and monitoring costs resulting in an estimated savings.

Staff recommend a 200-unit columbarium. Bayview has an interment rate of under 15 per year, making the life expectancy about 13 years. The long-term sustainability of existing cemeteries ensures the wise use of County land. The ability for residents to memorialize their families in local cemeteries establishes and maintains a physical record of a family's legacy in the community. Having this option at the Bayview cemetery will help ensure continued cemetery services to this community.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|--------------|---------------------------|
| | Building Norfolk |
| | Connecting Norfolk |
| | Serving Norfolk |
| \checkmark | Sustaining Norfolk |

Undertaking the assessment and adding columbaria protects and strengthens Norfolk's heritage.

Business Case for Service Improvements or Studies

7332622 Sports Field Light Tower Structural Reviews

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures: \$30,000 Lifecycle Costing: \$3,000 Useful Life (Years): 10

Overview:

This project proposes procuring an expert to complete a structural review on light poles and towers at all sports field and multi-use courts across Norfolk with the goal of maintaining sports parks in a state of good repair, enhancing the public's safety. and promoting the long-term sustainability of recreation in Norfolk County.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 30,000 | | | 30,000 |
| Total Expenditures | 30,000 | 0 | 0 | 30,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 30,000 | | | 30,000 |
| Development Charges | | | | 0 |
| Total Funding | 30,000 | 0 | 0 | 30,000 |

Justification

A structural review on all sports field and multi-use courts with a focus on the light poles and towers will not only assess their condition and appropriate replacement schedule, but their immediate safety. The goal of the study is to ensure that the current sports field light poles and towers are structurally sound. The study involves identifying hazards and updating our life cycle planning for the light poles and towers.

The last structural review was conducted in 2016, and a new assessment is needed to ensure continued safety and functionality of both the light poles and light towers. Periodic reviews is a best practice for this service.

Staff believe this project will provide residents that use sports fields and multi-use courts a better sense of safety and security while also ensuring all structures are hazard-less.

Alignment with 2022-2026 Strategic Plan

Undertaking the structural reviews helps ensure the health, safety, and well-being of the community.

Business Case for Service Improvements or Studies

7632607 PDHM Dock Security Gates

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures:\$ 25,000Lifecycle Costing:\$ 5,000Useful Life (Years):5

Overview:

The purpose of this project is to install twelve security dock gates at each of the seasonal dock walkways of the Port Dover Harbour Marina. The design will provide a clear separation between public areas and seasonal docks to enhance security for slip holders while also ensuring the marina remains open and welcoming to the public.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | 25,000 | | | 25,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 25,000 | 0 | 0 | 25,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 25,000 | | | 25,000 |
| Development Charges | | | | 0 |
| Total Funding | 25,000 | 0 | 0 | 25,000 |

Justification

As part of the Marina Business Sustainability Plan presented to Council in July 2025, this project was identified to construct gates and introduce gated access to each dock entrance at the Port Dover Harbour Marina.

The PDHM has twelve entrances (walkways) onto seasonal docks. While it is important the marina grounds are open and inviting to the public, keeping seasonal docks secure also protects the property of marina users. Staff would still like seasonal slip holders to have easy access to their boats while also keeping them separate from the public. Staff have concluded that the introduction of security gates at the 12 seasonal dock walkways would provide security to boaters and also keeping the marina grounds open. Staff believe this will provide slip holders with a sense of safety and security. The investment in this project shows that Norfolk County is determined to providing excellent service.

Alignment with 2022-2026 Strategic Plan

| √ | Empowering Norfolk Building Norfolk |
|----------|-------------------------------------|
| H | Connecting Norfolk |
| H | Serving Norfolk |
| H | Sustaining Norfolk |

Adding security gates will help create a place where both business and residents thrive.

Business Case for Service Improvements or Studies

7632608 PRHM Automated Ramp Arm and Digital Technology

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures: \$ 25,000 Lifecycle Costing: \$ 2,500 Useful Life (Years): 10

Overview:

This project involves the installation of an automated ramp arm and a digital pay station at the Port Rowan Harbour Marina boat ramp. As a passive marina with no on-site staff to collect fees, this technology will enable efficient, self-service payment for residents who use the boat ramp.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 25,000 | | | 25,000 |
| Total Expenditures | 25,000 | 0 | 0 | 25,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 25,000 | | | 25,000 |
| Development Charges | | | | 0 |
| Total Funding | 25,000 | 0 | 0 | 25,000 |

Justification

As part of the Marina Business Sustainability Plan presented to Council in July 2025, this project was identified to install access and payment technology at the Port Rowan Harbour Marina. The PRHM has a ramp available twenty-four hours a day, seven days a week for the public to use. Currently there is no way to ensure all payments for the use of the boat ramp are collected. The installation of an automated paying station and ramp arm should help increase collection of payments.

The Port Rowan Harbour Marina has been consistently identified as unprofitable / unviable as a business operation, in part due to its passive operations. However staff have identified revenue generation as a major opportunity for the marina to grow. This investment will ensure all payments for residents using the ramp are received, while also committing to the idea of revenue generation and growth for the marina.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 □ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 ✓ Sustaining Norfolk

Implementing better pay technology at PRHM helps continue an affordable and sustainable resource strategy.

Business Case for Service Improvements or Studies

7632609 PRHM Pier Inspections

Project Summary

Division: Community and Development Services

Department: Parks, Recreation and Culture

Capital Expenditures:\$ 15,000Lifecycle Costing:\$ 500Useful Life (Years):30

Overview:

The purpose of this project is to inspect the Port Rowan Harbour Marina pier to assess its condition, including any signs of damage or aging. As a long-standing feature of the Port Rowan community, the pier plays an important role for our community members. With current lower water levels, now is an ideal time to conduct a thorough inspection of the infrastructure.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 15,000 | | | 15,000 |

| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 15,000 | | | 15,000 |
| Development Charges | | | | 0 |
| Total Funding | 15,000 | 0 | 0 | 15,000 |

Justification

As part of the Marina Business Sustainability Plan presented to Council in July 2025, this project was identified to inspect the Port Rowan Harbour Marina Pier. The pier is used daily for fishing and sightseeing by local community members and tourists. Inspections of the pier would assess its condition to give community members and tourists peace of mind when it comes to their security and safety while out on the pier, as well as identifying the need for other potential capital repairs.

The inspection can also assess the feasibility of offering additional waterlots and/or seasonal or transient slips along the pier (particularly along the west side), which may lead to recommendations that have the potential to increase revenue at the Port Rowan Harbour Marina and increase its viability as a self-sustaining operation.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk |
|--------------|---------------------------|

8232302 Cultural Plan & Archaeological Management Plan

Project Summary

Division: Community and Development Services

Department: Planning and Realty Services

Capital Expenditures: \$ 250,000 Lifecycle Costing: N/A Useful Life (Years): N/A

Overview:

As part of the Official Plan Review, a Cultural Plan and Archaeological Management Plan have to be completed in order to ensure compliance with applicable provincial policy. The Official Plan enables the County to complete these study works and provide a framework for the completion of these studies.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 250,000 | | | 250,000 |
| Total Expenditures | 250,000 | 0 | 0 | 250,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 250,000 | | | 250,000 |
| Development Charges | _ | | | 0 |
| Total Funding | 250,000 | 0 | 0 | 250,000 |

Justification

Since the creation of the Norfolk County Official Plan, no detailed work has been undertaken regarding cultural heritage and archaeological matters beyond the establishment of standard policies. Sections 5.7.1 (g) and 5.7.4 (d) of the Official Plan provide the authority and framework for the County to carry out these studies.

The continued absence of this detailed work presents a barrier to implementing modernized policy standards. It also limits clarity around when archaeological assessments are required as part of development applications.

Completion of this project is needed in order to ensure compliance with applicable provincial policies. Completing this project will help ensure Norfolk County's policies are current, comprehensive, compliant and in alignment with the County's strategic plan.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

8232603 Housing Needs Assessment Phase 2

Project Summary

Division: Community and Development Services

Department: Planning and Realty Services

Capital Expenditures: \$ 25,000 Lifecycle Costing: N/A Useful Life (Years): N/A

Overview:

This is a follow-up on the Housing Needs Assessment Outcomes presented to Council in July 2025. While Phase 1 fulfilled legislative / external funding obligations, Phase 2 will focus on expanding the outcomes and providing capacity for the County to plan and deliver housing more effectively.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 25,000 | | | 25,000 |
| Total Expenditures | 25,000 | 0 | 0 | 25,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 25,000 | | | 25,000 |
| Development Charges | | | | 0 |
| Total Funding | 25,000 | 0 | 0 | 25,000 |

Justification

Phase 2 it intended to disaggregate housing need by urban area allowing for more understanding of the pressures and gaps specific to each, support the County's growing need for more localized data to inform its Secondary Plans as they extend beyond the downtowns, provide enhanced insight to support future CIP planning and land needs analyses, assist Council and staff in prioritizing infrastructure and land use decisions with a stronger housing / equity lens, and offer a bridge between Norfolk's current growth allocations and the County's actual capacity to deliver a diverse housing mix across the housing continuum.

As discussed in the Phase 1 report to Council, areas for further study may also include investigating housing needs for temporary agricultural workers, potential opportunities on municipally owned lands, and incentives to support diverse and affordable housing options in conjunction with other initiatives such as the Community Improvement Plan, County Land Review, and other future growth-related studies.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Conducting a second phase to the Housing Needs Assessment will help foster responsible growth policies.

3332605 Norfolk County Accessibility Design Guidelines Update

Project Summary

Division: Corporate Services

Department: Customer Service and Communications

Capital Expenditures: \$30,000 Lifecycle Costing: \$6,000 Useful Life (Years): 5

Overview:

An update to the Norfolk County Accessibility Design Guidelines is necessary to ensure the document remains current with evolving legislative requirements, technical standards, and best practices in universal design. The guidelines were last updated in 2019, since than there have been key changes to relevant standards including the AODA, and OBC.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 30,000 | | | 30,000 |
| Total Expenditures | 30,000 | 0 | 0 | 30,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |

| Development Charges | | | | 0 |
| Total Funding | 30,000 | 0 | 0 | 30,000 |

Justification

Updating the design guidelines will ensure consistency across internal departments and projects, as well as with external vendors and contractors so that all new construction, renovations, and retrofits meet a high and uniform standard of accessibility. Updating these guidelines also helps to mitigate risk by reducing the likelihood of non-compliance, legal issues, or costly retrofits resulting from outdated design requirements.

A current and updated accessibility design guideline demonstrates the County's leadership and ongoing commitment to equity, inclusion, and public accountability. By aligning with current legislative and technical standards, the updated guidelines will support the development of safe, welcoming, and universally accessible spaces across County facilities.

Updating Norfolk's Accessibility Design Guidelines embeds accessibility and inclusion in the foundation of all built environments. By modernizing these guidelines staff are promoting policies and processes that foster responsible growth aligning with Council's strategic plan.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Maintaining relevant accessibility guidelines helps develop infrastructure to ensure complete communities.

Business Case for Service Improvements or Studies

7532508 Ambulance Security Safes

Project Summary

Division: Emergency and Social Services

Department:ParamedicsCapital Expenditures:\$ 60,000Lifecycle Costing:\$ 10,000Useful Life (Years):6

Overview:

This project includes the installation of security safes for medications in 11 ambulances, four emergency response vehicles, and two paramedic vehicles. Carrying the medications in the vehicles will enhance service delivery in Norfolk County by providing paramedics with additional symptom relief treatment options to manage a wider range of injuries and illnesses.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 60,000 | | | 60,000 |
| Total Expenditures | 60,000 | 0 | 0 | 60,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 60,000 | | | 60,000 |
| Development Charges | | | | 0 |
| Total Funding | 60,000 | 0 | 0 | 60,000 |

Justification

There are anticipated upcoming changes to the Ambulance Act under which new medications will become an integral part of the paramedic skill set. The new medications fall into a class of controlled substances that as per legislation will require specialized storage in safes. These safes are designed to reduce the risk of drug diversion while maintaining employee accountability and compliance with all applicable legislation.

The addition of narcotics to the paramedic skill set reflects the latest evidence and best practice to manage severe life-threatening situations such as seizures, myocardial infarction, as well as improved levels of care pertaining to pain management, psychosis, and sedation.

The introduction of new medications equips paramedics with expanded treatment options to manage a broader range of injuries and illnesses. This upgrade will improve the quality of care and the service provided to community members.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Adding safes to carry new medications in the vehicles ensures the health, safety, and well-being of the community.

Business Case for Service Improvements or Studies

7532608 Mechanical CPR Devices (13x)

Project Summary

Division: Emergency and Social Services

Department: Paramedics
Capital Expenditures: \$520,000
Lifecycle Costing: \$74,286
Useful Life (Years): 7

Overview:

This project includes the acquisition of 13 mechanical CPR devices. The need for this project is related to population growth; as population grows so does the demand for emergency medical services. These devices ensure that paramedics can respond effectively in both urban and rural settings, particularly where manual CPR is difficult.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 520,000 | | | 520,000 |
| Total Expenditures | 520,000 | 0 | 0 | 520,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 260,000 | | | 260,000 |
| Development Charges | 260,000 | | | 260,000 |
| Total Funding | 520,000 | 0 | 0 | 520,000 |

Justification

Since 2020, Norfolk County has experienced its highest volume of cardiac arrest responses, with approximately 160 cases annually, and 84 patients receiving CPR per year. In 2023, regulatory standards were updated, requiring paramedics to perform CPR for a minimum of 20 minutes, plus transport time, in cardiac arrest cases. However, delivering consistent high-quality manual CPR in real-world conditions remains a significant challenge. An investment in automated CPR devices will help ensure consistent, guideline-compliant CPR in all environments, improve patient outcomes by maintaining optimal compression depth and rate, reduce physical strain and injury risk for paramedics, and free up paramedics to focus on other critical aspects of the cardiac arrest.

This investment supports both clinical excellence and occupational safety, aligning with best practices and enhancing our emergency response capabilities by improving patient outcomes. The use of automated CPR devices have been associated with better rates of return of spontaneous circulation (ROSC) and survival to hospital admission.

Alignment with 2022-2026 Strategic Plan

| Empowering Norfolk Building Norfolk |

Purchasing new life-saving equipment ensures the health, safety, and well-being of the community.

Business Case for Service Improvements or Studies

7532609 Spare Cardiac Monitor

Project Summary

Division: Emergency and Social Services

Department:ParamedicsCapital Expenditures:\$ 70,000Lifecycle Costing:\$ 10,000Useful Life (Years):7

Overview:

Norfolk County Paramedic Services requires the purchase of an additional cardiac monitor to serve as a spare unit. The additional cardiac monitor will enhance reliability and resilience of Norfolk County Paramedic Services. Having a spare cardiac monitor ensures that front line responders are never without essential diagnostic tools.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 70,000 | | | 70,000 |
| Total Expenditures | 70,000 | 0 | 0 | 70,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | | | | 0 |
| Development Charges | 70,000 | | | 70,000 |
| Total Funding | 70,000 | 0 | 0 | 70,000 |

Justification

Cardiac monitors are essential for patient assessment and care during pre-hospital emergencies. They provide real-time data on heart rhythm, oxygen saturation, blood pressure, other vital signs, and defibrillation. Having a spare unit readily available ensures continuity of service in the event of equipment failure or maintenance downtime. Currently, when a monitor is unavailable, staff must remove the device from another paramedic unit. The primary benefit of this investment is risk mitigation, being able to avoid service disruptions or delays due to unavailable equipment is a major benefit, that will no longer compromise patient care.

Having spare cardiac monitors ensures that front-line responders are never without essential diagnostic tools, thereby improving patient outcomes and maintaining high standards of care. It also supports operational readiness and aligns with the County's commitment to proactive and responsive public service. This investment will help staff provide excellent service by making sure employees are never without essential equipment.

Alignment with 2022-2026 Strategic Plan

| | Empowering Norfolk Building Norfolk |
|--------------|--|
| | Connecting Norfolk |
| \checkmark | Serving Norfolk |
| | Sustaining Norfolk |

Adding equipment redundancy creates an environment of continuous improvement and operational readiness.

Business Case for Service Improvements or Studies

6432601 10-Year Housing & Homelessness Plan

Project Summary

Division: Emergency and Social Services **Department:** Housing and Social Services

Capital Expenditures: \$ 50,000 Lifecycle Costing: \$ 5,000 Useful Life (Years): 10

Overview:

This project requires staff to conduct a legislatively-required long-term study. The study sets goals for staff and both Norfolk County and Haldimand County Councils to guide the Housing and Homelessness Plan throughout the next 10 years to provide positive impacts to the entire housing continuum.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|----------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 50,000 | | | 50,000 |
| Total Expenditures | 50,000 | 0 | 0 | 50,000 |
| | | | | |
| Funding Sources | | | | |
| Grants / External Recovery | 17,000 | | | 17,000 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 33,000 | | | 33,000 |
| Development Charges | | | | 0 |
| Total Funding | 50,000 | 0 | 0 | 50,000 |

Justification

The 10-Year Housing and Homelessness Plan is a Ministry of Municipal Affairs and Housing requirement for all 47 Service Managers in Ontario. The plan outlines specific community needs for Haldimand and Norfolk Counties, addressing local circumstances, challenges and opportunities, and helping to implement solutions to those issues. Earlier this year, the joint advisory committee received the Year 10 update report from the existing plan, which is now up for renewal.

The 10-Year Housing and Homelessness plan sets achievable goals for staff and both Norfolk County and Haldimand County Councils. In doing so Norfolk and Haldimand will be putting the tools and resources in place to ensure our businesses' and residents' succeed maintaining alignment with both Councils' strategic plans.

The project will be funded by shared levies, so only approximately \$33,000 of the project budget is expected to be a cost to Norfolk.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Updating the Housing & Homelessness Plan seeks to ensure the health, safety, and well-being of the community.

Business Case for Service Improvements or Studies

5632513 Asphalt Hotbox and Recycler (2x)

Project Summary

Division: Public Works

Department: Roads

Capital Expenditures:\$ 143,000Lifecycle Costing:\$ 9,533Useful Life (Years):15

Overview:

The project includes the purchase of two two-ton, dump trailer mounted diesel or propane fired asphalt hot boxes with recycler / reclaimer capabilities. The hot box would allow the County to increasingly repair potholes with hot mix asphalt instead of cold patch, a better practice.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | • |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 143,000 | | | 143,000 |
| Total Expenditures | 143,000 | 0 | 0 | 143,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 143,000 | | | 143,000 |
| Development Charges | | · | | 0 |
| Total Funding | 143,000 | 0 | 0 | 143,000 |

Justification

Patching with hot mix would allow roads to use far less cold patch, which results in a more permanent fix. This could lead to savings in materials and resources as staff would reduce the amount of times they fill the same pothole.

Generally the tender price for cold patch by the ton is more expensive than hot mix asphalt, resulting in comparative savings. With this approach, staff would still use cold patch, however, it can continue being phased down in favour of hot mix with the purchase of these additional units. The recycler / reclaimer features allow roads to utilize current stock piles and waste material with a minimal fee of an emulsion additive as well.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Purchasing hotboxes will help staff maintain Norfolk's solid infrastructure foundation.

Business Case for Service Improvements or Studies

5632611 Multi-function Brush Cutter Arm

Division: Public Works

Department: Roads

Capital Expenditures: \$ 575,000 Lifecycle Costing: \$ 38,333 Useful Life (Years): 15

Overview:

The project includes the investment of the first of three brush cutters with a multi-functional arm (purchases phased over three years). The project is expected to reduce downtime and make Norfolk County's roadsides safer by providing brush chopping on a full time basis. Reduction in liability, claims, and machine repairs would decrease overall spending by Norfolk County.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | • | | |
| Engineering | | | | 0 |
| Construction | | | | 0 |
| Purchases / Other | 575,000 | | | 575,000 |
| Total Expenditures | 575,000 | 0 | 0 | 575,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 575,000 | | | 575,000 |
| Development Charges | | | | 0 |
| Total Funding | 575,000 | 0 | 0 | 575,000 |

Justification

The Roads department currently operates a utility tractor with an arm and rotary head (valued at \$380,000) as well as two pay loaders with front mounted arms and rotary heads (valued at \$470,000). While these machines can be made to meet operational needs, the department is unable to maintain an adequate level of service due to a number of factors. This includes downtime for repairs, needing equipment (loaders) for other jobs that take priority, overworking machines that are not intended for Norfolk's unique landscape, and pure volume of work. Brush chopping should be a year-round operation to maintain consistent service levels that only cease for snow removal operations. In consultation with the Fleet department, an estimated \$15,000 in annual maintenance savings may be realized from reducing strain on existing equipment.

With the investment in brush cutters, Roads would be able to brush roadsides more consistently and efficiently, which will improve public safety and reduce liability to Norfolk County.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 □ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 ✓ Sustaining Norfolk

The purchase should reduce liability, claims, and repairs, continuing an affordable resource strategy.

Business Case for Service Improvements or Studies

5732604 Vac & Jetter Trailer

Project Summary

Division: Public Works

Department: Environmental Services

Capital Expenditures: \$ 275,000 Lifecycle Costing: \$ 27,500 Useful Life (Years): 10

Overview:

This project aims to purchase a trailer-mounted vacuum / jetter unit, which can be towed by a pickup truck and operated by a small crew. This compact unit is ideal for quick response, routine maintenance, and hard-to-reach locations. It will free up Norfolk's full-size flusher truck for larger projects, extend its lifespan, improve operation flexibility, and reduce contractor costs.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) | | |
|-------------------------|-----------|-----------|----------------|------------|--|--|
| Expenditures | | | | | | |
| Engineering | | | | 0 | | |
| Construction | | | | 0 | | |
| Purchases / Other | 275,000 | | | 275,000 | | |
| Total Expenditures | 275,000 | 0 | 0 | 275,000 | | |
| | | | | | | |
| Funding Sources | | | | | | |
| Grants | | | | 0 | | |
| Debt Financing | | | | 0 | | |
| Reserve & Reserve Funds | 275,000 | | | 275,000 | | |
| Development Charges | | | | 0 | | |
| Total Funding | 275,000 | 0 | 0 | 275,000 | | |

Justification

Norfolk County currently uses a full-size vacuum / flusher truck for all flushing, hydro excavation, and utility locate work. While this truck is critical for larger jobs like full mainline sanitary and stormwater flushing, it is also often used for small routine work like clearing culverts, exposing buried valves or pipes, or flushing short sections of storm sewer. These smaller jobs do not require such a large unit and can create delays when the flusher truck is needed for larger projects, which leads to contracting this work out at a minimum of \$1,100 per request (4hrs x\$275).

Purchasing a trailer-mounted vacuum / jetter unit ideal for quick response, routine maintenance, and hard-to-reach locations will improve operational flexibility, reduce contractor costs, and extend the life of Norfolk's full-size flusher truck by reducing its overuse. Having this trailer in-house will reduce or eliminate the need for external equipment rentals and callouts, freeing up thousands of dollars for other stormwater initiatives. This investment improves service delivery, reduces external dependency, and extends the life of higher-value assets in alignment with the strategic plan.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Purchasing a vac & jetter trailer will help provide a solid infrastructure foundation for stormwater assets.

Business Case for Service Improvements or Studies

5532514 Argyle Ave Ext - Bluegrass Ph.4 to Fertilizer, Delhi

Project Summary

Division: Public Works

Department: Engineering and Asset Management

Capital Expenditures: \$ 1,985,000 Lifecycle Costing: \$ 132,333 Useful Life (Years): 15

Overview:

This project will begin the design / engineering phase for the Argyle Ave road extension. The overall project will include the construction of a new road to connect Argyle Ave from the Bluegrass Subdivision to Fertilizer Rd in Delhi.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 149,000 | | | 149,000 |
| Construction | | 1,836,000 | | 1,836,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 149,000 | 1,836,000 | 0 | 1,985,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | 1,376,000 | | 1,376,000 |
| Reserve & Reserve Funds | 149,000 | 460,000 | | 609,000 |
| Development Charges | _ | | | 0 |
| Total Funding | 149,000 | 1,836,000 | 0 | 1,985,000 |

Justification

The Argyle Ave extension from the east end of Argyle Ave to Fertilizer Road will provide an easterly outlet for the truck traffic servicing the Delhi Industrial Area. The project will also include excavation, road granulars, ditching and asphalt on top of installing new wastewater mains and, constructing new water mains. Installation of new underground servicing will begin water looping for this section of the community and is also anticipated to accommodate new growth, making this project eligible for a high proportion of development charge funding as approved via the 2018 Development Charges Background Study. In this case, development charges reserve funds may not have a sufficient balance to fund the project so DC debt is anticipated to be used.

Following the detailed design scheduled for 2026, if approved, construction is scheduled to be tendered in 2027.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 □ Building Norfolk
 ☑ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Constructing new roads brings the community together with physical linkages and maximizes mobility options.

Business Case for Service Improvements or Studies

5532674 Pedestrian Bridge - Clifton Park

Project Summary

Division: Public Works

Department: Engineering and Asset Management

Capital Expenditures: \$ 100,000 Lifecycle Costing: \$ 2,000 Useful Life (Years): 50

Overview:

The proposed project involves the construction of a small pedestrian bridge near the site of Dingle Creek within Clifton Park. The existing culvert outlet is undersized and experiences frequent washouts during significant rainfall and melt events, and a solution is needed to maintain pedestrian access.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 25,000 | | | 25,000 |
| Construction | 75,000 | | | 75,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 100,000 | 0 | 0 | 100,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 100,000 | | | 100,000 |
| Development Charges | | · | | 0 |
| Total Funding | 100,000 | 0 | 0 | 100,000 |

Justification

Culvert failures require repeated temporary repairs by Parks and Roads staff, diverting resources from other core work and creating ongoing public safety risks for park users. Sediment build-up at the downstream outlet into the Lynn River further reduces capacity and increases maintenance demands.

As a permanent stormwater solution for this area may still be several years, this project should restore pedestrian access, improve safety, and reduce repetitive maintenance. This approach will improve water conveyance, reduce sediment trapping, and provide a safe, reliable crossing for park users during high-water events. The project directly enhances public safety by eliminating a crossing prone to washouts and erosion during storm events. It will also reduce repetitive maintenance costs, supports infrastructure resilience, and address a known environmental issue causing flooding and erosion.

Alignment with 2022-2026 Strategic Plan

| Empowering Norfolk Building Norfolk |
|-------------------------------------|
| Connecting Norfolk |
| Serving Norfolk |
| Sustaining Norfolk |

Constructing new pedestrian bridges helps provide a solid infrastructure foundation.

Business Case for Service Improvements or Studies

5532823 Roundabout at St John's Road and Blueline Road

Division: Public Works

Department: Engineering and Asset Management

Capital Expenditures: \$ 3,814,000 Lifecycle Costing: \$ 254,267 Useful Life (Years): 15

Overview:

This project will begin the design / engineering and land use planning components for traffic safety control measures at a busy intersection. The overall project will include the construction of a roundabout at St. John's Road and Blueline Road, scheduled for 2028. A roundabout is expected to deliver the highest operational performance among the alternatives considered.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | 347,000 | | | 347,000 |
| Construction | | | 3,467,000 | 3,467,000 |
| Purchases / Other | | | | 0 |
| Total Expenditures | 347,000 | 0 | 3,467,000 | 3,814,000 |
| | | | | |
| Funding Sources | | | | |
| Grants | | | | 0 |
| Debt Financing | | | 3,467,000 | 3,467,000 |
| Reserve & Reserve Funds | 347,000 | | | 347,000 |
| Development Charges | | | | 0 |
| Total Funding | 347,000 | 0 | 3,467,000 | 3,814,000 |

Justification

In October 2025 Council received a report on traffic control options on St. John's Road, and staff recommended continued monitoring of both intersections, with plans to implement a roundabout at each location when operational performance or growth warrants a change in traffic control.

Based on the objective here to improve the overall safety of the intersection by reducing severe injury and fatal collisions, while also providing an equal or better level of service from an operational perspective, a roundabout is anticipated to be supported by 2028.

As Norfolk County is currently experiencing growth in the Port Dover and Simcoe areas, demand on these interconnecting roadways increase, likely making this project eligible for a development charge funding. In this case, the Roads Development Charge Reserve Fund may not have a sufficient balance to fund the project so DC debt is anticipated.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 ☑ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 □ Sustaining Norfolk

Adding roundabouts on high utilization roads ensures the health, safety, and well-being of the community.

5532621 2026 Sidewalks, Walkways, Street Lighting Improvements

Project Summary

Division: Public Works

Department: Engineering and Asset Management

Capital Expenditures: \$ 228,000 Lifecycle Costing: \$ 228,000 Useful Life (Years): 1

Overview:

This project provides an ongoing allocation for the installation of new sidewalks in Norfolk County. Projects will be determined based on public need and recommendations of supporting plans such as the ISMP's Active Transportation Study.

| | 2026 (\$) | 2027 (\$) | 2028-2035 (\$) | Total (\$) |
|-------------------------|-----------|-----------|----------------|------------|
| Expenditures | | | | |
| Engineering | | | | 0 |
| Construction | 228,000 | | | 228,000 |

| Grants | | | | 0 |
| Debt Financing | | | | 0 |
| Reserve & Reserve Funds | 228,000 | | | 228,000 |
| Development Charges | | | | 0 |
| Total Funding | 228,000 | 0 | 0 | 228,000 |

Justification

Gaps in the County's sidewalk network exist. Sidewalks are an integral part of the County's transportation, and specifically, active transportation network. Filling these gaps will increase pedestrian safety on County roadways and encourage active lifestyles. Similarly, gaps in the illuminated sections of the existing sidewalk network. The ISMP Active Transportation Strategy recommended the connection of several gaps in these network.

Overall, this program is an ongoing process that Norfolk County commits to improving on an annual basis in order to maintain strong public infrastructure. Other projects exist in the capital forecast to replace / rehabilitate degrading sections of sidewalk or street lighting, but the Sidewalks, Walkways, Street Lighting program is specifically available for adding new infrastructure and filling existing gaps.

| Development Charges | | | | 0 | |
| Total Funding | 300,000 | 0 | 0 | 300,000 | |

Justification

In May 2024, Council received a Comprehensive Shoreline Assessment report evaluating risk exposures and environmental impacts at 34 County sites. One of those properties was a site on Nelson Street, bordering the Port Dover Water Treatment Plant (PDWTP) property. The PDWTP and its critical components are becoming increasingly susceptible to flooding, wave action, and advanced erosion. Thousands of residents rely on this property for access to clean water.

Following the initial report, Norfolk County secured funding through the Green Municipal Fund to complete a feasibility study for erosion options at the site. The study explored high-level options for nature-based and built solutions. The preferred option was selected through a multi-criteria analysis and includes installing riprap along the shoreline to enhance erosion protection, stacked stone wall in front of the pump house to mitigate wave impacts, and accounts for climate change impacts like variable water levels and more extreme storm events. Staff are exploring additional funding opportunities to support the project.

Alignment with 2022-2026 Strategic Plan

5532335 Long Point Causeway Post Construction Monitoring

Project Summary

Division: Public Works

Department: Engineering and Asset Management

Capital Expenditures: \$ 105,000 Lifecycle Costing: \$ 1,400 Useful Life (Years): 75

Overview:

This project includes the continued monitoring of the effects that may have impacted the habits of critical wildlife habitats in the area of the Long Point Causeway Bridge following the recent reconstruction of that infrastructure.

Justification

Following the reconstruction of the Long Point Causeway Bridge, it was a requirement to monitor the effects that project may have had or continue to have on critical wildlife through 2027. This requirement was mandated by the Department of Fisheries and Oceans Canada, and also by Environment and Climate Change Canada as a condition of making replacements to the Long Point Causeway Bridge.

The Long Point Causeway Bridge was reconstructed in 2022, and starting in 2023 Norfolk County the annual capital budgets have included a small allocation to remain responsible for monitoring the effects of the reconstruction. There are no changes to the scope of this project since last year's allocation was approved by Council. 2027 is anticipated to have one more final allocation of funds for this initiative.

Alignment with 2022-2026 Strategic Plan

□ Empowering Norfolk
 □ Building Norfolk
 □ Connecting Norfolk
 □ Serving Norfolk
 ✓ Sustaining Norfolk

Monitoring the impact of bridge construction protects Norfolk's natural heritage.

NOTES

As per CS-25-040 presented at the April 8, 2025 CIC meeting, CCBF allocations utilized on infrastructure reconstruction projects from 2026 onwards, including water / wastewater components Grant forecast based on most recent info published by AMO (until 2028), assumed constant thereafter

Commitments are forecast based on Draft 2026-2035 Levy Capital Plan

Key projects include: 5532516 Norfolk St. Bridge South (2026) and 5532506 East Church St - Main St to Duncombe Rd (2027)

Cemeteries Reserve

10-05-9937-2937

Approved Fund Purpose:

To provide funding for the replacement or addition of cemetery capital works (such as columbarium purchases), or acquisition of cemeteries.

NOTES

Contributions increased at a decreasing rate over time to reflect subsiding inflation

Commitments are forecast based on Draft 2026-2035 Levy Capital Plan

Per CS-23 Reserve and Reserve Fund Policy, excess balances assumed to be put towards debt mitigation, so forecasted balance plugged to \$0 in future years

Key projects include: 5632611 Multi-function Brush Cutter (2026) and 7532608 Mechanical CPR Devices (2026)

OCIF Reserve Fund 10-03-9926-2926

Approved Fund Purpose:

To fund capital expenditures on the development and implementation of an asset management plan, or core infrastructure projects that are part of an asset management plan (water, wastewater, roads, bridges, and culverts). Legislated by the Ontario Ministry of Agriculture, Food and Rural Affairs' Ontario Community Infrastructure Fund Formula-based Component Agreement, 2016, s.A3.1.

NOTES

As per CS-25-040 presented at the April 8, 2025 CIC meeting, CCBF allocations utilized on infrastructure reconstruction projects from 2026 onwards, including water / wastewater components

Grant confirmed through 2026 by MOI, forecast assumed to decrease 10% thereafter until returning to pre-COVID top-up level and then held constant, due to uncertainty surrounding the ministry's long-term allocation plan

Commitments are forecast based on Draft 2026-2035 Levy Capital Plan

Key projects include: 5532122 Sovereen Street - James St to Queen St (2026) and 5532603 Big Creek 6th Concession Bridge (2026)

Parking Reserve Fund

10-03-9922-2922

Approved Fund Purpose:

To fund costs related to providing or maintaining parking facilities for building owners or occupants exempt by Norfolk County Council from providing or maintaining those parking facilities. Legislated by the *Planning Act, 1990, s.40(3)*.

NOTES

2026 DC Collections estimated based on 2-year average incl. exemptions, assumed grow at 2.5% thereafter Commitments are forecast based on Draft 2026-2035 Levy Capital Plan Key projects include: 7433302 New Aerial Fire Truck (2031)

Fire Protection Post DC Reserve Fund

10-05-9979-2979

Approved Fund Purpose:

To fund capital costs related to the portion of fire protection services considered excess capacity intended to benefit anticipated development after the 10-year period immediately following the preparation of the background study, as that portion shall not be used in the method for determining the development charges imposed by the development charge by-law in effect at that time or the reserve funds to which those development charges relate. Legislated by the *Development Charges Act, 1997, S.33.*

Commitments are forecast based on Draft 2026-2035 Levy Capital Plan

Key projects include: 5532514 Argyle Ave Ext - Bluegrass Ph. 4 to Fertilizer Rd (2027) and 5532823 & 5533047 Roundabouts at St John's Road (2028 & 2030)

Roads & Related Post DC Reserve Fund

10-05-9988-2988

Approved Fund Purpose:

To fund capital costs related to the portion of roads and related services considered excess capacity intended to benefit anticipated development after the 10-year period immediately following the preparation of the background study, as that portion shall not be used in the method for determining the development charges imposed by the development charge by-law in effect at that time or the reserve funds to which those development charges relate. Legislated by the *Development Charges Act, 1997, S.33.*

NOTES

Commitments are forecast based on Draft 2026-2035 Levy Capital Plan

Budget Process

The County is responsible for maintaining a significant portfolio of assets, like roads, bridges, facilities, vehicles, and equipment. While minor repairs and maintenance are reflected in the operating budget, expenditures for the acquisition, renewal, and disposal are made through capital planning.

The Draft 2026-2035 Levy Capital Plan was developed with considerable input from project managers, department directors, and the Senior Leadership Team over the course of many months. While capital planning is a year-round focus for Finance staff, a simplified timeline is included below.

It's important to look beyond just 2026 to ensure capital needs are identified well in advance, in alignment with strategic priorities, and money is available to pay for them. While only the 2026 Levy Capital Budget is adopted, the entire 2026-2035 Levy Capital Plan will be "approved in principle". The Draft 2026-2035 Levy Capital Plan was prepared with the following objectives:

- 1. Delivering Value to Residents Budget engagement with Norfolk County residents indicated the public supports maintaining or increasing investment across most service areas. This is a challenge while facing an infrastructure funding shortfall, but staff look for opportunities to support this goal such as by applying for capital grants and continually re-examining the financing options for cheaper alternatives.
- 2. Remain Financially Responsible Financing the Draft 2026-2035 Levy Capital Plan requires finding a balance between the use of reserves and debt to maintain key guidelines such as maintaining positive reserve balances and remaining below the County's debt limits. A comprehensive financing strategy has been prepared to accommodate the County's forecasted capital needs, in line with Council's strategic priority Sustaining Norfolk.
- 3. Ensuring Norfolk is Prepared for the Future The 10-Year Levy Capital Plan considers residents of today and tomorrow, so that Norfolk County is properly prepared for any future challenges by planning for replacement projects that ensure existing assets will not fall into a state of disrepair. Significant capital investments are also required to plan for growth to ensure services don't decline as more people / businesses come to Norfolk.

May:
Capital Planning Kickoff
Workplans prepared, financial
system rolled over for new year

July:
Budget Guidance
Mayor provides key guidelines like infrastructure funding availability

August:
Financing Analysis
Finance inputs projects and
makes funding recommendations

October:
Draft Rate Budget
Water & Wastewater capital
projects are adopted by the Mayor

June:
Asset Management Integration
Outcomes of AMP added into
Capital Plans

July-August:
Departmental Collaboration
New project requests submitted
by all departments to Finance

September:
SLT Review & Business Cases
All projects reviewed and 2026
business cases developed

November:
Draft Levy Capital Plan
All other capital projects are
adopted by the Mayor

How to Read the Capital Plan

The Draft 10-Year Levy Capital Plan is separated by Division. Following each executive summary, projects are listed as follows:

- In Column 1, it is further broken down by Project Type → Department → Project Number & Name.
- Column 2, for 2025 & Prior budgets, indicates when a portion of the project was approved by Council in a previous year (which often occurs when a design / engineering component needs to precede the construction of the project).
- Column 3 is for 2026 budgets, which indicates the amount of spending for each capital project that is recommended for Council approval immediately.
- At the top of Columns 4-12, each year of the 10-Year Forecast is shown to indicate which year projects are scheduled for. These projects and their budgets are "approved-in-principle" meaning project managers may not commence the projects until Council approves them as part of a future capital budget.
- Column 13 calculates the total project budget over the course of the 10-year forecast period from 2026-2035.
- Columns 14-17 show the approved funding sources for each of the projects. These are presented as negatives.
- Finally, Column 18 shows the total funding which matches the total budget in Column 13, indicating the project budgets are balanced.

| Column 1 | 2 | 3 | | | | | 4-12 | 2 | | | | 13 | | 14 | ₁ 17 | | 18 |
|---|--------|--------|------|------|------|------|------|------|------|------|------|----------------|-------------|-----------|-----------------|-------------|----------------|

| | 2025 & | | | | | | | | | | | TOTAL | External | Debt | Reserves & | Development | TOTAL |
| Project | Prior | 2026 | 2027 | 2028 | 2029 | 2030 | 2031 | 2032 | 2033 | 2034 | 2035 | BUDGET | Financing & | Financing | Reserve | Charges | FUNDING |
| | | | | | | | | | | | | (2026 to 2035) | Grants | | Funds | | (2026 to 2035) |
| Service Improvements & Studies | | | | | | | | | | | | | | | | | |
| Strategic Initiatives | | | | | | | | | | | | | | | | | |
| Studies & Assessments | | | | | | | | | | | | | | | | | |
| 2132701 2026 Norfolk County Strategic Priority Update | | 36,000 | | | | | | | | | | 36,000 | | | (36,000) | | (36,000) |

Three Primary Project Types:

- Service Improvements & Studies for acquisition of new assets where no asset existed before, as well as replacements if a significant service level increase or enhancement occurs. Also includes studies, which are included in capital to improve long-term planning and tracking of forecasted needs.
- Renewal for replacement of existing assets or significant work that restores them to a condition that maintains current levels of service.
- Requisitions from Boards & Agencies for summarizing requests by the Norfolk County Public Library Board, Police Services Board, Long Point Regional Conservation Authority, and Haldimand-Norfolk Housing Corporation.

Four Primary Funding Sources:

- Reserves & reserve funds Reserves are accumulations of money set aside to be used in the future; they can be thought of as savings accounts. Contributions are provided for in the annual operating budgets and either immediately used to finance projects in-year or build up a balance to cover the cost of future projects. Contributions may also come from other sources, such as annual Ontario Community Infrastructure Fund (OCIF) and Canada Community-Building Fund (CCBF; formerly Gas Tax) allocations from senior levels of government, which must flow through a reserve fund.
- Debt financing Municipalities are permitted to borrow money to finance capital projects. Historically, debentures have been issued to fund projects that the County has been unable to cashflow with existing internal funds or availability of grants. Debt allows the County to pay for the entire cost of an asset upfront and then repay the borrowing agency over time by carrying debt servicing charges (principal + interest) in the annual operating budget(s).
- Development charges (DCs) DCs ensure that "growth pays for growth" by applying a surcharge on new developments, which the County collects over time and uses to fund projects that expand municipal services to accommodate development. These collections are transferred to DC reserve funds which are only withdrawn from to pay for growth-related capital projects.
- External financing This primarily includes funding from Provincial or Federal agencies, and is often one-time, sporadic, or unpredictable. As such, it is only included in the Capital Plan when either a) that project was previously approved by a funding agency, or b) the project is funding-contingent (meaning staff will pursue grant opportunities and only undertake the project if grant funding is secured). External financing can come from other additional sources such as donations, recoveries from property owners related to drain projects, or cost sharing agreements with developers.

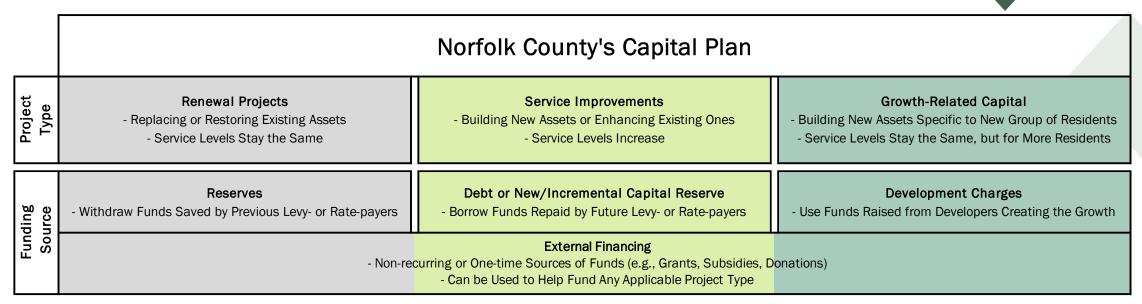

Capital Financing Principles

Staff adhere to the capital financing principles to ensure fairness among all County stakeholders, by funding three different project types in three different ways provided below (examples are hypothetical and do not reflect actual capital projects):

- 1. Service Improvements typically funded from debt (>\$1,000,000) or the New/Incremental Capital Reserve. Since new assets can only benefit future residents, those residents should pay for the associated costs. Debt accomplishes this because the cost of the project is covered upfront when it is implemented and is then repaid over time by carrying debt servicing charges in future annual Operating Budgets.
 - For example, if a new state-of-the-art playground is being built that has a useful life of 20 years, then the residents who will get to use the playground over the next 20 years should bear its cost by making future debt repayments, as past residents were unable to use the playground.
- 2. Renewal Projects typically funded from reserves. Since the original TCAs were only usable by past residents, then past residents should pay for the replacement projects. Reserve withdrawals accomplish this because past residents have subsidized contributions to reserves in the past, resulting in reserve balances being built up which could then be used to fund replacements.
 - For example, if a playground was built 20 years ago and has since fallen into a state of disrepair from residents using it, then those residents who had the benefit of using it should bear the cost by funding the renewed playground from reserves, because future residents were unable to use the original playground.
- 3. Growth-Related Capital typically funded from development charges. Since the need for additional TCAs arises from a growing population, then residents causing that growth should pay for those projects. Development charges accomplish this by adding a surcharge on new developments to pay their fair portion of TCAs required to accommodate growth.
 - For example, if a playground is being built as part of a new subdivision development, then those residents / developers building the subdivision should bear the cost of the playground, because they will be its primary users and the rest of the County's residents would have avoided that cost if the subdivision wasn't being built.

External financing (grants, donations, etc.) can also ideally be used to offset the County dollars spent on any of the project types mentioned.

This graphic visualizes the different project types and their ideal funding sources based on the County's financing principles discussed on the last page.

Beyond the County's capital financing principles, staff also exercise discretion, leading the Capital Plan to be prepared with the following tenets in mind:

1) maximize reserve financing while keeping projected balances positive, and 2) minimize debt financing (with priority in the near-term).

The inter-connected nature of these tools creates ripple effects. For example, swapping a debt-funded project to reserve funding without approving an offsetting increase to reserve contributions may result in the reserve falling below \$0, requiring the County to pay interest on the balance. For another example, cancelling a reserve-funded project may present the possibility of avoiding debt on another project by funding it from reserves in place of the cancelled one, creating an opportunity to eliminate debt servicing charges in the operating budget.

Months of the capital planning process are spent on optimizing the financing strategy for stability and affordability. Staff have made some of the following assumptions in developing the strategy: Council continues to approve annual increases to reserve fund contributions consistent with their endorsement of the 2025 Asset Management Plan Financial Strategy, projected capital reserve balances cannot be negative, the County's debt limits cannot be breached, \$2 million annual transfers from the Legacy Fund will continue to be transferred to a capital reserve, and uncommitted balances in the New/Incremental Capital Reserve will be used to swap the funding source of previously-approved debt-funded projects to further mitigate debt pressures.

How Norfolk Determines Recommended Reserve Contributions

Reserve contributions are a form of infrastructure funding raised by carrying a charge in the annual operating budgets. They often make up a significant portion of the operating budgets, so it is important to understand how those allocations are determined.

In understanding the capital financing principles on previous pages, ideally reserve contributions are high enough to fund all expected annual renewal projects and Requisitions from Boards & Agencies, or else the County will never progress towards financial sustainability. Currently, Norfolk's annual renewal spending exceeds its reserve contributions.

In the absence of 100% sustainability, staff must allocate the approved level of reserve contributions and any recommended increases / decreases to the total level of reserve contributions. Council has endorsed a 10-year financial strategy for determining the level of annual reserve contributions through their approval of the 2025 Asset Management Plan update. This recommendation was based on 1) determining the average annual investment required to maintain assets in a condition that achieves the service levels set in that report (e.g., 100% of emergency services vehicles kept in a state of good repair), and 2) raising contributions over a 10-year period to ensure they match the estimated level of annual spending. Staff shared different scenarios with Council comparing different period lengths for closing the shortfall with their impacts on the levy requirement, and ultimately 10 years was chosen to balance those two factors.

Once the total level of reserve contributions are determined for a given year, the final step is allocating the total pot to individual reserves. To do this, staff effectively set all applicable projects to reserve funding. This puts most reserves into a negative projected balance. If status quo contributions create a more-than positive projected balance throughout the entire forecast period, a portion of the contribution will be re-allocated to a more deficient reserve. The increase in contributions is then allocated to the most deficient reserve(s). From there, starting in the current year, projects are swapped to debt funding until the reserve balance is positive. This is then repeated for the next year, and then all of the remaining years in the forecast period, until all reserve balances are positive. With this methodology, staff ensure that unnecessary debt is minimized over the course of the 10-year Capital Plan, with priority in the short-term.

How Do Development Charges (DCs) Work?

Development charges are governed by the *Development Charges Act*, 1997, and its regulations. The following flow chart explains the legislative steps staff must follow in identifying development charge-eligible projects, and the numerous legislative constraints in place to facilitate the growth-pays-for-growth concept and prevent over-charging certain stakeholders.

Undertake master planning, asset management planning, and capital planning exercises to forecast the amount and location of future projects for each service area.

Remove all projects that are not driven by a need to serve anticipated development. i.e., cannot charge DCs for costs to replace assets, only projects that create new assets.

Remove portion of remaining projects that increase historic service standards. i.e., cannot charge DCs for costs that increase service levels, only expanding ones to new users.

Remove portion of remaining projects that use or create excess capacity. i.e., cannot charge DCs for developments that can already be served, or ones arising in 10+ years.

The remaining costs are considered eligible and are allocated across development types to establish equitable DC rates for residential, multiresidential, industrial, etc.

Remove portion of remaining projects for local services. i.e., cannot charge DCs for costs of individual developments, even if the County cash-flows those projects via front-ending.

Remove portion of remaining projects funded by grants or other contributions. i.e., cannot charge DCs for costs that would not otherwise be borne by tax- or rate-payers.

Remove portion of remaining projects that benefit existing development. i.e., cannot charge DCs for the estimated amount of existing users to be served by the new project.

Once DC rates are adopted, the County can start building the project so it is in place to provide service before the anticipated development proceeds.

As anticipated developments progress, Norfolk will start collecting DCs at the time of occupancy, a recent legislative change from the prior building permit issuance timeline.

DCs are not collected from exempt developments though. i.e., cannot charge DCs for industrial, non-profit housing, minimal expansion of existing residential property, etc.

Non-capital costs are ineligible to recover via DCs, so once the new infrastructure is built, Norfolk starts raising funds from all tax- and rate-payers to operate and maintain it.

| Project | 2027 | 2028 | 2029 | 2030 | 2031 | 2032 | 2033 | 2034 | 2035 | Total |
